Remarks Better than new, this immaculate townhome located close to the bay, beach and steps to town is one of very few on Seven Mile Island that provide 5 bedrooms and 4 baths, expansive living room with cathedral ceilings, brand new kitchen, new heated gunite pool, an additional family entertainment space, full size laundry room, large garage with ample storage and a private fenced in rear yard. New owners have remodeled and professionally decorated the entire townhome inside and out! Situated on an oversized 58' x 110' lot, this townhome is several feet wider and provides expansive living. After spending just five minutes in this home you will notice and greatly appreciate the difference. Through the front door of this home and off to the left sits the very convenient laundry room with full sized washer and dryer, utility sink and a linen closet. To the rear of the first floor sits two bedrooms and the first full bathroom is right outside both bedroom doors. Another great feature of this home is the location and design of the stairwell. Hardwood all the way up,
