Remarks

This is the property you have been dreaming of.... This amazing location is one of a kind with tremendous Bay and Ocean views. This Blane Steinman Designed home is being built by Mike Rennie Construction to be one of the most sought after bay-front homes in Stone Harbor. The home sits on a 66' by 155' lot that allows for a generous floor plan. The home will have 7 bedrooms and 7 Baths, but will also have 2 large living spaces in addition to the raised deck, pool and hot tub. The home is going to have a first floor family room off of the Pool and bay. The second floor was chosen for the main living space as the views are too spectacular to pass up. The home can be opened up to the covered second floor deck with roll down screens and a folding door to connect the spaces. The kitchen is massive and great for entertaining with Wolf and Subzero appliances. There is a large pantry for storage and extra refrigeration as well. The Master bedroom has a private deck, his and her closets and a beautifully designed ensuite bathroom. The First Floor has 10' ceilings to give a very open feel when you walk in the property.
