

MATTHEW 25 RESOURCE GUIDE

RESOURCES TO HELP YOUR FAITH COME ALIVE

Matthew 25:31–46 calls all of us to actively engage in the world around us, so our faith comes alive and we wake up to new possibilities. Convicted by this passage, the Presbyterian Publishing Corporation, the organization that operates PC(USA) Store, has accepted the invitation to become a Matthew 25 organization.

As part of this commitment, we are dedicated to providing books and resources for churches, groups, and mid-councils who have also accepted this invitation. In this guide, you'll find resources that specifically address your group's focus area in the Matthew 25 initiative. These include everything from group study to leadership to books and resources for children and youth. And even if your group has not officially signed on to be a Matthew 25 organization, the resources in this digital guide allow you to work toward the faithful initiatives of building congregational vitality, dismantling structural racism, and eradicating systemic poverty.

If you are viewing this on your computer or other device, you can click on any title or cover to be taken to the product page on PC(USA) Store. Also, look for the dark blue blocks to download resource samples throughout. You can also email or print this to use for personal research or with committees.

THE FOCUS AREAS

BUILDING CONGREGATIONAL VITALITY

The resources in this section are intended to build spiritual strength and your capacity for purposeful mission.

DISMANTLING STRUCTURAL RACISM

The resources in this section allow you to confront deeply ingrained racist systems and structures in your communities in order to challenge these systems and encourage action.

ERADICATING SYSTEMIC POVERTY

The resources in this section address the lack of access to social goods such as education, employment, and other measures of dignity, freedom, and participation in communal life.

Churches experiencing numerical and financial decline may dread the day when they can no longer afford a full-time pastor. Freeing up funds for a full-time salary would help, but is it possible to run effective ministries with a part-time professional? Journalist and part-time pastor Jeffrey MacDonald says yes—churches can grow more vibrant than ever, tapping into latent energy and undiscovered gifts, revitalizing worship, and engaging in effective ministry with the community.	<i>Neighborhood Church</i> acts as a resource to inspire churches to become a vibrant and engaging community partner with the families and neighborhoods living around them. Van Tatenhove and Mueller believe that, parish by parish, we can reverse the trend of congregational decline. They dare to have an audacious hope for local congregations as life-giving institutions that anchor their neighborhoods. A downloadable study guide series are also available.	<i>A Bigger Table</i> invites readers to envision a church that is big enough for everyone, speaking clearly on issues at the heart of the Christian community: LGBT inclusion, gender equality, racial tensions, global concerns, and theological shifts. This new edition includes a small-group study guide and a congregation-wide sermon series and program to explore the challenges of living out the bigger table when voices of hate and exclusion seem stronger and louder than ever.	Is your church a rowboat or a sailboat? Rowboat churches depend largely on human effort. Sailboat churches hoist sails and rely on the Holy Spirit to guide them. Arguing that churches should be “sailboats,” Joan S. Gray encourages readers to shift concern from the daily, practical concerns of their local church to fresh ideas found using the guidance of the Holy Spirit. Perfect for groups to read together, this book will help leaders reframe their church’s mission and practice.	Christian ministries often struggle to account for urbanization’s growing force, complexities, and reach. <i>Urban Ministry Reconsidered</i> features a collection of original essays by leading scholars and practitioners that explore current issues and challenges in urban communities. Together, these articles examine the degree to which the social, spiritual, and organizational priorities of urban ministries have been reconceived.	How do churches build immunity from racial and ethnic tensions that threaten to divide rather than unite congregations? Jacqui Lewis and John Janka believe that the answer lies in the development of multiracial, multicultural communities of faith. Here you will find lessons, questions for conversation, and spaces for journaling. Use the workbook with your planning team, board members, lay leaders, and staff.

Written by ten engaging pastors, seminary professors, and church leaders, this unique resource offers a diverse and holistic approach to stewardship. In ten accessible chapters, readers will learn how they can faithfully and practically discuss and engage with stewardship on a regular basis. Ideal for church leaders, this book includes questions for reflection and applications for life together at the end of each chapter. Copeland adds a special section with biblical references and preaching themes at the end of the book.	Best-selling author Mike Slaughter offers a comprehensive look at how Christians use their money. Slaughter explores today's culture of consumerism, asking difficult questions about morality and money. <i>The Christian Wallet</i> helps Christians grapple with important questions about stewardship: how we spend, how we live, how we save, how we give, and what it all means. Questions for individual or group study are included with each chapter. For a more in-depth study, a Stewardship Study Guide is available as a free download.	With deep pastoral sensitivities and solid biblical knowledge, veteran pastor and author David Mosser draws one Scripture passage from each week in the three-year lectionary cycle to provide a brief reflection on how that passage can be used to teach and preach about stewardship. Mosser's inspirational and motivational reflections address a variety of issues related to stewardship, making this book an essential resource for all pastors, worship leaders, and stewardship committees.	This book provides a practical, easy-to-understand approach to financial issues that face a church. With a comprehensive scope, it offers a fresh perspective and fun ideas for people who may not have any financial experience. Most chapters feature questions for discussion useful for study by stewardship committees or as a planning guide for stewardship campaigns. The final section includes a helpful collection of inventories, charts, sample plans, and other practical resources.	Although stewardship itself is a word often heard in the church, money is rarely discussed in terms of the ethical decisions and daily lifestyle choices we make. <i>The Price of Faith</i> presents a holistic definition of stewardship and examines what money and wealth mean for us in our participation in the life of the church and in our personal expressions of faith. This book includes ten session plans that will help move adults to a new understanding of stewardship.	Carol Wehrheim presents an accessible resource to help families understand the importance of stewardship. Reminding us that stewardship is about much more than money, Wehrheim analyzes biblical passages and identifies spiritual practices intrinsic to stewardship as a way of helping families respond to their call to be stewards in today's world. Including both a participant's section and a leader's guide, <i>Giving Together</i> is ideal for group or family study.

BUILDING CONGREGATIONAL VITALITY

RESOURCES FOR CHILDREN & YOUTH

Big God Big Questions equips students to employ the study of Scripture, tradition, and church, to tell their own story as Christian believers in the context of their local congregational experiences. Based on the findings of the Confirmation Project, it is focused on preparing youth to authentically answer the traditional membership questions:

- Trusting in the gracious mercy of God, do you turn from the ways of sin and renounce evil and its power in the world?
- Who is your Lord and Savior?
- Will you be Christ's faithful disciple obeying his word and showing his love?
- Will you devote yourself to the church's teaching and fellowship, to the breaking of bread and the prayers?

100 Things Every Child Should Know before Confirmation

A Guide for Parents and Youth Leaders

Rebecca Kirkpatrick

ISBN: 9780664260590

~~\$17.00~~ **\$11.05**

Many youth arrive at confirmation classes without a basic grasp of key Bible stories or Christian traditions. This book helps to fill that gap, offering Sunday school teachers, parents, and adult volunteers a compact guide for equipping their youth with knowledge and understanding of their own faith. It offers an overview of one hundred essential topics that all children growing up in the church should learn about. Each entry includes suggestions for how educators and parents can explore this item with their children and ideas for integrating the topic into the child's overall Christian education. This practical resource helps children think critically about Christian faith as they begin their confirmation studies, providing the vocabulary and understanding needed to articulate their own theology.

Much of the literature on leadership tells the story of heroic individuals creating their success by their own efforts. Such stories fail to recognize the structural obstacles to thriving faced by those in marginalized communities. If young people in these communities are to grow up to lead lives of purpose, others must help create the conditions to make that happen. This book offers advice on creating safe spaces for failure, nurturing networks that support young people of color, and providing professional guidance for how to implement these strategies.	Originally published in 2016 as <i>Race in a Post-Obama America</i> , this updated edition offers contributions from a diverse group of pastors, professors, and activists on the history of racism, the issues of racism today, and action plans for moving toward antiracist work and racial justice. Updated material addresses police and police brutality, the work of Black Lives Matter, and Black protests. New chapters examine racism in relation to immigration and digital media. Includes questions for reflection and discussion.	In <i>Good White Racist?</i> , Kerry Connelly exposes the ways white people participate in, benefit from, and unknowingly perpetuate racism — despite their best “good person” intentions. It unpacks the systems that maintain the status quo, keep white people comfortable and complicit, and perpetuate racism in the United States and elsewhere. Connelly shows us that even though it may not be our fault or choice to participate in a racist system, we all do, and it’s our responsibility to do something about it. Download the group study guide .	As we see oppression and hate run rampant in our nation, it’s as if Christianity has lost sight of the red letters altogether. Sheri Faye Rosendahl takes a look at important social issues in our society, the responses of American Christians, and the true ways behind the red letters. <i>Not Your White Jesus</i> addresses the need to reexamine the true ways of Jesus that we find clearly in the red letters, enabling readers to discover what it truly means to follow the ways of Jesus in contrast to following the ways of the American Christian elite.	Drawing on all the community’s collective voices — from “doctors to drug dealers” — <i>Fearless Dialogues</i> is a groundbreaking program that seeks real solutions to problems of chronic unemployment, violence, and hopelessness. In <i>Fearless Dialogues: A New Movement for Justice</i> , Ellison makes this same kind of analysis available to readers, walking them through the steps that must be taken to find common ground in our divided communities and then to implement genuine and lasting change.	<i>No Innocent Bystanders</i> looks at the role of allies in social justice movements and asks what works, what doesn’t, and why. It’s a start-up guide for spiritual or religious people who are interested in working for social justice but don’t know how or where to begin. Discussion questions at the end of each chapter make it a highly practical book for study and leadership groups.

In the stories of Nehemiah and other biblical leaders, Kevin Cosby finds inspiration on how to rebuild Black America including the necessity of government reparations for American Descendants of Slavery (ADOS). Cosby calls all Americans to move from a place of relative nonengagement and detachment to a place of active support of ADOS's efforts for justice and healing.	This collection from Serene Jones explores recent work in the field of trauma studies and how individual and collective violence affect one's capacity to remember, to act, and to love; how violence can challenge theological understandings of grace; and even how the traumatic experience of Jesus' death is remembered. Jones focuses on the long-term effects of collective violence and the discrete ways in which grace and redemption may be exhibited in each context.	This is the first book that addresses the concept of microaggressions in ministry and church life. Drawing from their background as ordained clergy, Sanders and Yarber introduce ministry leaders to the concept of microaggressions and look specifically at microaggressions directed at race, gender, and sexuality in the church.	Warren Copeland draws from his experience of more than two decades in city politics and addresses head on the issue of Christian ethics in public service. Throughout, he animates the discussion with anecdotes from his tenure in City Hall, combining examples of specific ethical issues in American cities with theological and ethical reflection. Then he includes specific suggestions for addressing social injustice in a manner that is true to Christian faith.	In <i>Mandate to Difference</i> , renowned theologian Walter Brueggemann sets forth a new vision of the Christian church in today's world. Bringing texts of the Old Testament to the forefront in light of our current moment, Brueggemann offers insights on themes of social justice in the Bible and in the contemporary church. This biblically based collection of essays will inspire your congregation's next steps.	Uniquely gifted preacher Otis Moss III challenges preachers to preach with a "Blue Note sensibility," which speaks directly to the tragedies faced by their congregants without falling into despair. He then offers four powerful sermons that beautifully and passionately brings to life biblical characters that speak to today's pressing issues, including race discrimination and police brutality, while maintaining a strong message of hope.

In <i>Building the Good Life for All</i> , L. Shannon Jung explores four strategies for mutual flourishing: charity, self-help, cultural value formation, and government action. Rather than theorizing on the causes of people's poverty, the chapters demonstrate how these transformational strategies work and how others can participate in them. Designed to be read and discussed in seven sessions, discussion questions with each chapter help groups process what they are learning and how they can apply these strategies personally and in their community.	Pastor Jerry Herships leads a church-ish community full of good-hearted heathens. They may hate church, but they love sitting around a bar talking about what really matters and doing some good for their city's poorest residents. Herships takes that experience and absolves other former churchgoers of their guilt. No, you don't have to go to church to love and serve God. Yes, God still loves you and wants to help you love the world.	Jerry Herships, former altar boy who had dreamed of making it big in show biz, tended bar to make ends meet, looking for his big break. After giving up the dream and leaving Los Angeles, he found his way back to the church and discovered God calling him to ministry. Now he leads AfterHours Denver, a bar church where people worship with a whiskey in their hand and make peanut butter and jelly sandwiches to serve Denver's homeless. <i>Last Call</i> is a story of finding yourself, and finding how God can use you in unexpected ways.	In this powerful and hopeful book, David Beckmann, a leading anti-hunger activist, looks at the causes of hunger, presents case studies of countries that have made great strides against it, and shares stories of people who are, quite simply, hungry every day. The problems can seem overwhelming but Beckmann lays out a clear and workable plan for effectively using political channels to make great progress. Download a free study guide for individual or group use with this book.	In <i>Materiality as Resistance</i> , Walter Brueggemann defines materiality as the use of the material aspects of the Christian faith, as opposed to materialism, which places possessions and physical comfort over spiritual values. In this concise volume, Brueggemann lays out how we as Christians may reengage our materiality for the common good. This book serves as a manifesto of Walter Brueggemann's most important work and as an engaging call to action. It is suited for group or individual study.	In <i>Practicing</i> , Pastor Kathy Escobar inspires and challenges readers with practical encouragement to live their faith through real action using ten transformational practices, including listening more, including the marginalized, and advocating for justice. By putting our hearts, hands, and feet behind our good intentions, we can transform our groups, our communities, and our world. Extremely interactive, relational, and practical, <i>Practicing</i> can be read alone or processed together with a group, church, or class.

Talking about Who Counts

Who Counts? is a creative retelling of three of Jesus' most popular parables: the lost sheep, the lost coin, and the prodigal son. As young readers count to help the characters find what's missing, *Who Counts?* teaches that every one of us counts in God's eyes and that everyone should feel counted. <i>Just Capitalism</i> is a Christian moral defense of economic globalization as a system that is well-suited to provide the necessary material needs that are prerequisite for human community and flourishing. Global-based market exchange offers the development and distribution of the goods of creation for humans to enjoy and share. Waters argues that economic globalization, and thus capitalism, is a necessary condition for sustaining human life but not a sufficient condition for enabling human flourishing.	In the twenty-first century, hope is challenged by ideologies and global trends that would deny hope and even life itself. Terrorist violence, social and economic inequality, and the looming crisis of climate change all contribute to a cultural moment of profound despair. Moltmann reminds us that Christian faith has much to say in response to a despairing world. In "the eternal yes of the living God," we affirm the goodness and ongoing purpose of our fragile humanity.	The Bible might seem like the last place one would look for information and guidance on economics, but in fact the Bible deals with all aspects of life. Richard Horsley's <i>Covenant Economics</i> explores economic issues in the Bible, offering pastors, students, and laity a clearer understanding of the Bible's clarion call for economic justice for all. Questions for discussion and suggestions for further reading are included in this volume—a work that will spark lively conversation.	Having grown out of a 2004 consultation sponsored by the John Knox International Reformed Center, the University of Geneva, and the World Alliance of Reformed Churches, the essays in <i>John Calvin Rediscovered</i> revive the social and economic thought of John Calvin, first exploring Calvin in his own time and then turning to Calvin's global influence.	Encouraging Christians to call for public policies that benefit those most vulnerable in our nation, <i>To Do Justice</i> offers tools for studying complex domestic social problems such as Social Security, immigration, the environment, and public education. It serves as a guidebook to becoming involved in social action. With discussion questions in each chapter, this book is an excellent resource for classrooms—both in colleges and in churches.	By providing tools for examination and concrete actions for individuals and communities, <i>Justice in a Global Economy</i> guides readers through many of today's complex societal issues, including environmental and economic justice. Beginning with an introduction to the impact of economic globalization, the book provides both critical assessments and examples of those actively working to transform society. Perfect for group study, each chapter concludes with questions for discussion and reflection.
