Planning Guiding Principles

- Safe care
 - For patients and staff
 - Abiding by good, consistent infection control practices
 - Social distancing must be maintained
 - Keep patients out of waiting rooms
 - Physical Distancing
 - Maintain masking
 - Good hand hygiene
 - Ensuring available hand sanitizing and washing for patients
 - Environmental cleaning
 - Wiping surfaces regularly and consistently.
 - Appropriate staffing
- Patient Access
 - Lessen the distance patients are driving for care, eventually.
 - Shared spaces with other service types (for example, geriatrics)
 - Testing availability
 - Staff
- Nimble to changes
 - Telehealth

Appointments

Appointments, Rescheduling, and Screening

Scheduling:

MyG

- request to close scheduling for Peds for 1 month made.
 - Response pending
 - Symptomatic patients are asked to call.
 - Screening questions triggered

Call Center

- alerting families and screening

Calls

- we are informing families and screening

Redundancy of screening is important!

Appointments

Well Visits

If parent calling to cancel, please reschedule 30 months and up to summer (June through August).
If 2 years or less or acute issues, schedule.

Now time to initiate criteria to defer:

For at least the next 2 weeks

Limiting noncritical, elective surgeries

Chronic appointments deferred to 3-4 months.

Consider still having contact (telephone or Telemedicine).

Therapy appointments, cardiac rehab deferring, too, pending cases

Radiology still imaging (being asked questions and masking)

Starting Thursday 3/19/2020

OUR CRITERIA (next slide)

Appointment Rescheduling

Pediatrician and AP Reviews

4/2/2020 at 0830, SC

Well visits:

Well visits not requiring vaccines are being moved to June or later this summer.

To Cancel	To Review for Cancel, to ensure not overdue for vaccines	To Keep
30 months = 2.5 years	9 months	Newborn
3 years	24 months = 2 years	Newborn follow-ups
5 years	5 years	2 months
6 years	12 years	4 months
7 years	17yo	6 months
8 years		12 months
9 years		15 months
10 years		18 months
13 years and older (Except 16yo)		4 years
		11 years
		16 years

Keep list of patients with appointments being moved.

Also, consider phone check ins with teens whose appointments are being cancelled, to ensure they don't have needs we should meet now by Telemedicine.

Appointment Rescheduling

PAR Workflow

4/14/2020 update

Well visits:

Well visits not requiring vaccines are being moved to June or later this summer.

Please use “Provider Cancel-COVID19 Related” reason code # 406 when rescheduling.

Please note MOVED in appointment notes. **Keep list of patients with appointments being moved**

Also, consider phone check ins with teens whose appointments are being cancelled, to ensure they don't have needs we should meet now by Telemedicine.

To Cancel	To Review	To Keep
AFTER review by clinician to ensure we are ok with cancellation. <i>PARs are inquiring about family/patient concerns when they call to reschedule.</i>	To ensure not overdue for vaccines which would require an in person appointment. AND, to ensure we give input on whether the patient needs Telemed or could be deferred to this summer. <i>PARs are inquiring about family/patient concerns when they call to reschedule.</i>	
30 months = 2.5 years	9 months	Newborn
3 years	24 months = 2 years	Newborn follow-ups
5 years	5 years	2 months
6 years	12 years	4 months
7 years	17yo	6 months
8 years		12 months
9 years		15 months
10 years		18 months
13 years and older (Except 16yo)		4 years
		11 years
		16 years

Scripting

Well visit rescheduling Scripting:

If call goes to voicemail:

Hello! This is _____, calling from Geisinger Pediatrics. We are taking the COVID19 pandemic situation very seriously and are working to protect our communities. This is prompting us to call to reschedule your child's upcoming visit to this summer. Please call us back to reschedule.

Scripting

Well visit rescheduling Scripting:

If call is answered:

Hello! This is _____, calling from Geisinger Pediatrics. We are taking the COVID19 pandemic situation very seriously and are working to protect our communities. This is prompting us to call to reschedule your child's upcoming well visit to this summer.

Do you have any current health needs that we need to help with now?

If no concerns: *May I reschedule your appointment for _____ (June or later this year).*

If yes concerns: *I will alert your pediatrician. Would you like to schedule a Telemedicine visit to address that?*

If yes to telemedicine: *Schedule telemedicine visit. And, add May I reschedule your well visit for _____ (June or later)?*

If no to telemedicine: *I will still alert your pediatrician, and if an acute visit is needed, we will schedule a visit sooner than your well visit. May I reschedule your well visit for _____ (June or later)?*

AND, please message clinician the visit was to be with about the concern.

Please know, this situation is changing day by day. To keep you and your family healthy, know the virus is easily spread from person to person by coughing sneezing, and contact with respiratory secretions. So, WASH YOUR HANDS frequently and properly, do your best to keep your environment clean, and stay separate from people outside of your home.

Thank you for trusting Geisinger Pediatrics and Janet Weis Children's Hospital with your child's care!

If there are questions, please recommend the following resources:

www.geisinger.org/coronavirus

Or, the Geisinger Hotline number 570-284-3657

Scripting

Follow-up visit rescheduling Scripting:

If call goes to voicemail:

Hello! This is _____, calling from Geisinger Pediatrics. We are taking the COVID19 pandemic situation very seriously and are working to protect our communities. This is prompting us to call to reschedule your child's upcoming visit. Please call us back.

If call is answered:

Hello! This is _____, calling from Geisinger Pediatrics. We are taking the COVID19 pandemic situation very seriously and are working to protect our communities. This is prompting us to call about your child's upcoming visit. Could we hold that visit by video at (time) on (day) with Dr.?

If yes: *Thank you! Please take email and appropriate information.*

May I also confirm a telephone number to reach you at that day?

Please ensure email and phone number on in patients demographics.

If no: *Do you have any current health needs that we can help with now?*

If yes: I will alert your pediatrician and they will contact you for guidance. You should hear from them in the next 2 days. (AND, must message clinician the visit was to be with about the concern.)

If no concerns: May I reschedule your appointment for another time?

Please know, this situation is changing day by day. To keep you and your family healthy, know the virus is easily spread from person to person by coughing sneezing, and contact with respiratory secretions. So, WASH YOUR HANDS frequently and properly, do your best to keep your environment clean, and stay separate from people outside of your home.

Thank you for trusting Geisinger Pediatrics and Janet Weis Children's Hospital with your child's care!

Janet Weis Children's Hospital Messaging and FAQs

Janet Weis Children's Hospital Response to COVID-19 Outbreak

Thank you for trusting Geisinger Pediatrics and Janet Weis Children's Hospital with your child's care. We understand that you have important questions regarding how coronavirus can affect your child and family. We want to be an ongoing resource to help keep your child and family well.

We are taking the situation very seriously but do not want to cause undo fear or panic. Please understand that this situation is changing day by day. We will continually update you with new information. Recommendations given today may need adjustment as the situation evolves.

There are many types of viruses and even many types of coronaviruses. COVID-19 is a specific virus that appears to be most dangerous in older adults. Based on what we know about COVID-19, it appears to cause less severe illness in children. However, an important feature of COVID-19 infection in children is even with minimal symptoms, children can transmit the virus to older family members who could develop severe illness.

Remember, the virus is easily spread from person to person by coughing, sneezing, or contact with respiratory secretions. So, **WASH YOUR HANDS** frequently and properly (see *FAQ sheet*) and do your best to keep your child's hands and environment clean.

We believe trusted sources of knowledge can dispel myths and avoid panic. Geisinger Pediatrics and the Janet Weis Children's Hospital are prepared to keep our patients and colleagues well informed. Please find below some reliable resources.

EPIC Smart Phrase

**Slide from
March 19, 2020**

Thank you for reaching out. As expected, many of our patients and families have approached us with questions and concerns surrounding the coronavirus, COVID-19. Please see up to date information regarding this virus, the disease, and Geisinger's management of cases at: <https://www.geisinger.org/coronavirus> . Here you can also find links to the CDC (Centers for Disease Control and Prevention) and PA DOH (PA Department of Health).

If you or someone you know is experiencing potential symptoms of COVID-19, we encourage you to call your primary care doctor or the 24/7 hotline (570-284-3657) with any questions before visiting a clinic or emergency department.

If you have further questions, please do not hesitate to contact us.

*Sincerely,
Geisinger Pediatrics Woodbine*

Appointments

Inform about Visitor Restrictions when making appointments
Going well?

Handle the call in 1 call. Do NOT ask the parent to call back tomorrow.

Signs regarding restrictions coming soon.

Appointments

*Slide from
Week of March
24, 2020*

OUR CRITERIA

Safely postpone

When canceling, ask if any urgent needs. We can call back to determine if need call or visit.

Well Visits

- Reschedule 2yo and up to summer (June thru August)
 - 4yo and 11yo*** Still offer if needs vaccines
- If 2 years or less, cohort to mornings.
 - If calling to cancel, reassure. If still wish to cancel, reschedule soon (1 month out)
 - If calling to cancel for acute issues, reassure.
 -

Telehealth: mental health (anxiety, depression, behavioral health), Med Checks (ADHD) by phone? Yes Telehealth? Yes. Guidance on who to move. *Training time?

***Identify a few providers by region to do Telehealth (away from patients, tech, appropriate to interface)

***Alert Tejal

Acute Appointments: AM well vs PM sick

- If not febrile nor respiratory issues—afternoons
- If respiratory issues—how to ensure not put off to afternoon but may need morning due to SOB?
- Cohorting: West—distance between clinics limiting; GW big enough to cohort w/in clinic; LH and M share with FM—waiting room exposures
- East—3 clinics: Mt PI, Mt Pocono, Pottsville: separated area for well, gen for sick, FF: Precision health use for well, sick at FF
- Central—separating halls at Woodbine worked well.

Cohorting Clinics

Cohorting

NE

- implemented by clinic in Luzerne County
- navigating shared spaces with Family Practice

Central

WHO and UNICEF warn of a decline in vaccinations during COVID-19

15 July 2020 | News release | Geneva/New York | Reading time: 5 min (1361 words)

GENEVA/NEW YORK, 15 July 2020 – The World Health Organization and UNICEF warned today of an alarming decline in the number of children receiving life-saving vaccines around the world. This is due to disruptions in the delivery and uptake of immunization services caused by the COVID-19 pandemic.
