

MOVING YOU FORWARD, WITH **CONFIDENCE.**

Planes is a full-service, professional FF&E logistics team with 100+ years of experience. As a family-owned company, we treat our clients like family, supporting them when and where they need it most. We are proud to provide our senior living clients with consistent, reliable, quality service nationwide.

HOW WE CAN HELP:

Transportation management: We have the equipment and expertise to transport product quickly and safely, including full truckload pickups from manufacturers and direct-to-site delivery.

Warehousing solutions: Should you need a centralized receiving model instead, Planes' nationwide network of warehouses can receive and store product until it's ready to be shipped.

Final mile services: We offer time-specific delivery to ensure your facilities are ready for residents to enjoy.

White glove services: Our professional installation teams take care of everything, including debris removal.

Project management: With a flexible model, Planes can adjust its level of service to fit your needs – but we always serve as an extension of your team.
