

2023 Legislative Session Weekly Report

Greater Kitsap Chamber

January 21, 2023

Week Two

On Monday, January 16th, both the [House](#) and [Senate](#) honored the late civil rights leader, Martin Luther King Jr., by adopting resolutions on the floor. On Tuesday, [Republican](#) and [Democratic](#) leaders in both the House and the Senate gathered for media availability where they answered questions about their priorities and various bills moving through the legislative process. On Wednesday, U.S. Senator Patty Murray and State Senator Claire Wilson held a [joint press conference](#) to discuss affordable child care. This rest of the week was full of committee hearings and executive sessions.

In week two we saw public hearings on several high-profile pieces of legislation including policies on guns, middle housing, recycling, and nurse staffing. All of these hearings attracted large numbers of supporters and opponents. On Tuesday, 4,406 people signed in not wishing to testify in House Civil Rights & Judiciary on [HB 1240](#) (Peterson, D-21), a Governor and Attorney General request bill that prohibits the manufacture, importation, distribution, sale, or offer for sale of any assault weapon, with a few exceptions. This is the seventh session Attorney General Bob Ferguson has requested this bill and democrats hope this is the year they will succeed.

Also on Tuesday the Senate Labor and Commerce Committee heard legislation related to nurse staffing, SB 5236 (Robinson, D-38). Over 3000 people signed in not wishing to testify. The bill directs L&I to set staffing standards for healthcare workers, specifically, to set minimum nurse to patient ratios. Nurse staffing has been a contentious issue the last several sessions, unlike the 2022 bill this legislation does not set staffing standards in statute.

Addressing affordable housing continues to be a top legislative priority this session. This week middle housing was front and center as there was a public hearing on [HB 1110](#) (Bateman D-20), legislation that would allow for more density in residential neighborhoods that are zoned for single family detached housing. The bill has strong support from labor, urbanists, builders, business and realtors however some local jurisdictions have concerns. While increasing housing supply has been a big focus for the legislature, they continue to focus on housing stabilization as well. On Tuesday, Representatives Nicole Macri and Alex Ramel held a [press conference](#) on bills relating to the rent stabilization act.

The Washington Recycling and Packaging act, or the WRAP Act ([SB 5154](#)/[HB 1131](#)), had public hearings in both the House and Senate this week. This bill proposes implementing end producer responsibility (EPR), a bottle deposit system, and minimum recycled content requirements. The bill is supported by environmentalists and local governments and is opposed by industries including hospitality and grocery stores.

This week Senator Noel Frame (D-36) and Representative My-Linh Thai (D-41) introduced a Wealth Tax bill at a [press conference](#). The bills (HB 1473/SB 5486) would create a property tax on the ownership of stocks, bonds, and other financial assets over \$250 million. The revenue generated is dedicated to four funds - the Education Legacy Trust Fund, which is a dedicated funding source for early learning, K-12, and higher education; the Housing Trust Fund, which pays for the construction of affordable housing, and two new funds created in the bill: a Disabilities Care Trust account that will pay for services for Washingtonians with disabilities, and a Taxpayer Justice account, that will offer credits against taxes paid by low and middle-income families.

Senator Frame also introduced a new Margins Tax bill ([SB 5483](#)) this week. The Margins tax was a [recommendation](#) coming out of the Tax Structure workgroup. The Margins Tax is meant to replace the B&O tax and instead of a business paying tax on their gross revenue with no deductions, each year, a business gets to take one major deduction of their choosing and then their tax is calculated on their remaining margin. The bill is scheduled to be heard next week.

Next week, committee hearings and executive sessions will continue. Unless considered necessary to implement the budget, all must be out of their house of origin policy committee by February 17th in order to stay alive this legislative session.

Employment Law

A number of impactful labor and employment proposals have been filed and have begun receiving public hearings in their House and Senate committees.

SB 5123 - Concerning the employment of individuals who lawfully consume cannabis.

This legislation would place restrictions on an employer's ability to screen for an applicant's lawful use of cannabis, unless federal regulations require otherwise. The bill is scheduled for executive action on Tuesday, January 24th.

HB 1106 - Concerning qualifications for unemployment insurance when an individual voluntarily leaves work.

This legislation expands unemployment insurance benefits to certain workers who leave their jobs for good cause. The bill was heard the first week of session and was passed out of committee on Friday, January 20th. There were two amendments adopted.

SSB 5286 - Modifying the premium provisions of the paid family and medical leave program

This bipartisan legislation proposes changes to the Paid Family Medical Leave (PFML) program including adjusting the way premiums are calculated, raising the cap on premiums, and creating a reserve fund. SSB 5286 had a public hearing on January 16 and was passed out of committee the following day.

Housing Affordability and Homelessness

Governor Inslee has proposed the state raise \$4 billion to build affordable housing by issuing bonds outside the state's debt limit, which will require legislative and voter approval. Additionally, there are proposals to allow more units on residential lots, intensify transit-oriented development, eliminate design review boards on residential construction, and cap the amount landlords can raise rent each year. A few highlighted pieces of legislation from week one are below:

HB 1110/SB 5190 - Increasing middle housing in areas traditional dedicated to single-family detached housing

This session the conversation surrounding housing supply and the “missing middle” has gained significant momentum. HB 1110/SB 5190 would require cities with a population of at least 6,000 or a city near an urban growth area with a population of more than 200,000 to increase density in residential areas typically dedicated to single-family detached housing. The bill was heard this week in the House Housing Committee.. You can watch the hearing [here](#). The Senate bill is scheduled to be heard next week on Wednesday, January 25th.

HB 1388 - Protecting tenants by prohibiting predatory residential rent practices and by applying the consumer protection act to the residential landlord-tenant act and the manufactured/mobile home landlord-tenant act

This legislation is viewed by housing providers as rent control. The legislation prohibits a landlord from increasing the rent more than the CPI-U or 3%, whichever is greater, up to a maximum or 7%. The bill is scheduled to be heard next week and expected to be opposed by housing providers.

HB 1389/ SB 5435 - Concerning residential rent increases under the residential landlord-tenant act and the manufactured/mobile home landlord-tenant act.

Similar to HB 1388, this legislation aims to limit rent increases in order to reduce homelessness. Among other regulations the bill prohibits a landlord from increasing the rent more than the CPI-U or 3%, whichever is greater, up to a maximum or 7%. Commerce is required to calculate and publish the maximum annual rent increase percentage. Although they are very similar the main difference between HB 1389 and HB 1388 is that HB 1389 allows landlords to accrue increases and apply them later. So for example if a landlord did not increase rent by 5% this year they would be able to increase by 10% the following year. Both bills are scheduled to be heard next week and expected to be opposed by housing providers.

Public Safety

HB 1363/ SB 5352 - Concerning vehicular pursuits

Legislators are revisiting law enforcement reform legislation related to vehicular pursuits that was adopted in 2021. HB 1363/SB 5352 have been introduced with a long list of bipartisan sponsors. The bill would remove the requirements for police officers to receive approval before conducting a pursuit and replace that with a requirement to notify the officer's supervisor of the pursuit. The bills have not yet been scheduled for a public hearing.

Environment

HB 1505/ SB 5447 - Promoting the alternative jet fuel industry in Washington

This week bipartisan legislation was introduced related to sustainable aviation fuels. The goal of the legislation is to promote in-state use and deployment of sustainable aviation fuels through tax incentives and other tools. We expect that the bills will be heard in week four.

HB 1216/SB 5380 - Concerning clean energy siting

This Governor request legislation would create an Interagency Clean Energy Siting Coordinating Council to be co-chaired by the Department of Ecology and the Department of Commerce. The purpose of the council would be to expedite the permitting for clean energy projects. The bill would also establish a definition for clean energy projects "of statewide significance" and require SEPA review to be completed within two years. The House bill was heard this week in the House bill was heard this week in the House Environment and Energy Committee. The Senate bill is scheduled to be heard next week on Tuesday, January 24th.

Transportation

This week there was a [work session](#) on the current status of the ferry system. You can watch the work session [here](#).

- [Washington State Ferries in 5 Minutes](#)
- [WSDOT - Washington State Ferries Update and Challenges Ahead](#)
- [WSF - Strategic Workforce Planning Implementation Roadmap](#)
