

2022 Legislative Session

Weekly Report

Chamber of Commerce

February 26, 2022

Week Seven

Week seven was yet another busy week for the legislature as the opposite policy house committee cutoff was on Thursday. That means if a bill was introduced in the House, it needed to pass through its policy committee in the Senate to still be considered alive, and vice versa for Senate legislation. It is important to note that legislation deemed necessary to implement the budget is exempt from cut-offs.

In the second half of the biennium, the legislature is tasked with passing Supplemental Operating, Capital and Transportation Budgets. On Monday, both the House and the Senate released their respective versions of the Supplemental Operating Budgets. The Operating Budget that was approved last Spring adopted a \$59 billion dollar two-year spending plan. The 2022 supplemental operation budget proposed by the [House \(HB 1816\)](#) increases spending by \$6.2 billion while the [Senate \(SB 5693\)](#) increases spending by \$5.8 billion.

The Senate's proposed Supplemental Operating Budget utilizes state and federal money and allots \$700 million to address housing homeless, \$600 million for schools, and nearly \$400 million for retrofitting older schools for seismic activity. Behavioral health and environmental issues were the top priority. Senators Rolfs and Robinson held a [press conference surrounding the Senate Democratic Supplemental Operating Budget](#) to discuss their proposal. On Friday evening, the bill was debated on the Senate Floor, where it ultimately passed 29-19.

House Democrats' breakdown for their proposal allotted money in the following ways; \$800 million for K-12 education, \$280 million towards childcare, \$364 million for housing and homeless, \$184 for human services, \$700 million towards public health, vaccines, and COVID response, \$160 million for public safety, \$478 million towards natural resources, \$333 towards behavioral health, \$200 million for small and businesses that struggled during COVID. On Monday, a [press release presenting the House Democratic Supplemental Operating Budget](#) was held by House Majority Leader Sullivan, Appropriations Chair Ormsby, Finance Chair Frame, and Appropriations Vice Chairs Gregersen, Macri, and Bergquist. House Appropriations held a public hearing and took executive action on this legislation over the week. The House is expected to strike their language onto the Senate vehicle and then pass the Senate bill. At that point the bill will go into conference where House and Senate Budget writers will negotiate a final budget.

Last week, the Senate released a bipartisan [Supplemental Capital Budget proposal \(SB 5651\)](#) the proposal includes \$94.8 million in spending from available bond capacity, \$561.6 million from American Rescue Plan Act State Fiscal Recovery Funds, and \$290.3 million from federal Infrastructure Investment and Jobs Act. The [House Supplemental Capital Budget](#) (HB 1781) bipartisan proposal was released on Monday and it included \$77.4 million in spending from available bond capacity, \$637 million from a General Fund-State deposit into the Capital Community Assistance Account, and \$263.8 million from the federal Infrastructure Investment and Jobs Act. Both the House and Senate Capital Supplemental Budget proposals make large investments into housing affordability and homelessness, behavioral health, and broadband infrastructure.

The revenue portion of the transportation package called Move Ahead Washington ([SB 5974](#)) has captured a lot of

scrutiny by surrounding states due to the fuel export tax which intends to pay for \$2 billion of new projects outlined in the proposed transportation budget. [Click Here](#) to see what other states are saying.

Following the opposite house fiscal cut off on Monday, February 28th both the House and Senate will head to the floor to pass bills out of their respective chambers. Negotiations between House and Senate budget writers will continue over the last two weeks until they reach agreement and pass the final supplemental budgets. The Legislature is scheduled to adjourn on March 10th.

Economic Development and Community Investment

HB 1015 - Creating the Washington Equitable Access to Credit Act

This legislation would create the Washington Equitable Access to Credit Program that would be housed at the Department of Commerce. The program would be funded by a B&O tax credit for contributions to the program. Commerce would then award grants to community development financial institutions for lending or investing in historically underserved communities. The bill passed the Business Financial Institutions and Trade Committee unanimously. The committee adopted a [striking amendment](#) that made a few changes to the bill. Most significantly it shortens the program from 10 years to 5 years, reduces the match requirements for QLI, requires *repaid* loans to revolve in perpetuity, and has a cap on the interest rate for loans made with grant dollars at prime + 2%. The bill is scheduled for a public hearing on Saturday in Ways and Means.

HB 2018 - Creating a three-day shop local and save sales and use tax holiday to benefit all Washington families for certain items \$1,000 or less during the month of September.

This legislation authorizes a shop local and save sales and use tax holiday for Labor Day Weekend 2022 for qualified items purchased by individuals. The bill was heard on Saturday in the House Appropriations Committee and is scheduled for executive session on Monday, February 28th.

Housing Affordability and Homelessness

HB 1782/SB 5670 - Creating additional middle housing near transit and in areas traditionally dedicated to single-family detached housing

This is Governor request legislation that seeks to restore affordable housing by requiring cities to authorize the development of all middle housing types on all lots zoned for detached single-family residential use and within one-half mile of a major transit stop. Unfortunately HB 1782 did not make it out of the House before the cut off and it is unlikely that this legislation will be moving forward this year.

HB 1981 - Concerning local government planning

This legislation introduced by Rep. Gerry Pollet (D-46) seeks to improve the availability of middle housing by allocating \$25 million from the General Fund to the Department of Commerce to provide grants to cities and counties for this purpose. The bill did not advance out of the House before the cut off but could be considered NTIB.

HB 1866 - Assisting persons receiving community support services through medical assistance programs to receive supportive housing

Legislation brought forward by Rep. Chopp treats chronic homelessness as a medical condition and proposes a healthcare solution. The bill creates the Apple Health and Homes Program to provide a supportive housing benefit for individuals that are enrolled in medical assistance. The bill passed the Senate Health and Long Term Care Committee on Wednesday and is scheduled to be heard in the Senate Ways and Means Committee on Saturday, February 26th.

HB 1660 - Concerning accessory dwelling units

This legislation sponsored by Rep. Shewmake requires cities and counties to allow for the construction of accessory dwelling units within urban growth areas. The bill passed the Senate Committee on Housing & Local Government and has been referred to Rules.

Employment Law

SB 5873/SB 2031 - Concerning unemployment insurance, family leave, and medical leave premiums

Legislation sponsored by Senator Keiser (D-33) in the Senate and Rep. April Berg (D-40) in the House proposes changes to the state's UI program. As a result of the PFML solvency issue the PFML provisions in the bill have been removed from the bill. The remaining UI provisions in the bill would decrease the maximum social tax (social cost factor) for 2022 and 2023. The bill was heard and passed out of the House Labor and Workplace Standards Committee last week and has been referred to Rules.

SB 5649 - Modifying the Washington state paid family and medical leave act

This legislation sponsored by Senator June Robinson (D-38) proposes a number of changes to the state's PFML program. As a result of the recent solvency issues there was an amendment in the Senate that includes a JLARC audit, an OFM outside contract to hire a financial consulting firm to help with fund analysis and solvency projections, a legislative taskforce to develop recommendations for 2023 legislative session changes and several other accountability measures. The bill was heard on Friday in the House Appropriations Committee and is scheduled for executive session on Monday.

HB 2076 - Concerning rights and obligations of transportation network company drivers and transportation network companies

Legislation introduced by Rep. Berry (D-36) which reflects years of conversations between the labor community and transportation network companies. The bill passed the House this week 55-42 and is scheduled for a public hearing in the senate Transportation Committee on Saturday February 26th.

Important Dates:

~~Feb 3 - House of Origin Policy Cutoff~~
~~Feb 7 - House of Origin Fiscal Cutoff~~
~~Feb 15 - House of Origin Floor Cutoff~~
