

PA RELAY

**Testers
Needed:**
Be part of the
new way to
Relay!

Pennsylvania Relay is excited to announce the launch of our desktop Real-Time Text Trial.

We are looking for testers in Pennsylvania to participate in a free trial that meet the following criteria:

- Deaf or combined Deaf & Low Vision
- Have high speed internet
- Willing to complete online surveys sharing your experience
- Willing to use the device for 90 days

Contact us to participate:
info@hamiltonrelay.com or 800-618-4781

This trial will test first-of-its-kind technology that brings Real-Time Text (RTT) capabilities to a digital desktop phone. RTT phones may be a replacement for TTY machines and an enhancement to Video Relay Service. RTT allows both parties to communicate with both voice and text at the same time which allows for a smoother, more real-time experience.
