Out in the District

I was happy to present medals and certificates to the students from Trimmer Elementary School and Logos Academy who submitted winning entries in my annual Essay Contest earlier in the year!

I loved getting to be the host for the Advantage Program's tour of the Capitol (*photo below*). The Advantage Program is a youth mentorship program geared to expose middle and high-school-aged children to life's opportunities, generating their interest in areas such as entrepreneurship, financial literacy, civil engagement, culinary arts, athletics, and business principles.

Legislative Updates

Out of the Education Committee:

- [HB 100](#) - *Cross-Age Tutoring Program*: Directs the PA Dept. of Education to create guidelines for cross-age tutoring in schools that would allow older students to assist younger students with their coursework.
- [HB 141](#) - *Grow Your Own Educator*: The program would provide financial assistance, including pathways for educators to help support high-need schools in geographic areas that have hard-to-staff teaching positions. The program would equip aspiring educators with the supports necessary to ultimately become a certified educator.

Both bills are now with the House for the full chamber's consideration.

On the Floor:

- [HB 360](#) - *Extending Automobile Lemon Law Coverage to Motorcycles*
 - After passage by the Consumer Protection Committee, the bill was sent to the full House for consideration, which referred it to the Appropriations Committee for discussion.
- [HB 494](#) - *Carbon Monoxide Alarms in Child Care Facilities*; and [HB 507](#) - *No Pelvic Exams Without Consent*
 - The House passed both bills this week; they now head to the Senate for that chamber's consideration.

Passed on Concurrence:

- [SB 8](#) - *Enhanced Insurance Coverage for Life-Saving BRCA Testing and Breast Cancer Screenings*, removing out-of-pocket costs.
 - The House passed this bill that originated in the Senate. It now heads to Governor Shapiro for his signature.
