

Resources You Can Use

The York County Area Agency on Aging is pleased to share our newly updated edition of **Resources You Can Use**. This booklet is a compilation of many resources and programs that are available for use by older adults. Some are open to anyone. We encourage you to download and keep this book on-hand as a reference, as well as share it with those in need to help them find the resources they may need.

Finally, please know that in addition to **Resources You Can Use**, the York County Area Agency on Aging has a variety of other resources available by calling our Information and Referral line or accessing our website resources at: <https://yorkcountypa.gov/216/Resources>
