

# Free Educational Webinars for Health Safety Net Organizations

Americares presents another free education series for free and charitable clinics, community health centers, and health safety-net organizations focused on the following skills building opportunities:

- **Diabetes Care and Prevention**
- **Patient-Centered Communication**
- **Time Management**
- **Avoiding Burnout**
- **And more!**

Come learn with **MAVEN Project** physician volunteer experts in this series of one-hour live webinars focused on what primary care providers, clinical staff, and clinic leadership need to know related to diabetes care and prevention, as well as other important health topics. While health providers are especially encouraged to attend, all stakeholders are welcome to join, so sign up for a webinar today!

You do not need to participate in all the courses. All sessions will be recorded and shared out for those who are unable to attend. Previous recordings will be housed and available [here](#). Unfortunately, we are not able to offer continuing education credits for this series.

**[Get more information and register here!](#)**
