YOUR IMPACT

Erika, 16, came to the Receiving Hope Center after being rescued in a sting operation. Erika had run away from home to a city across the state with other teenagers. Once there, she did not have the freedom she thought she would. She fell into the hands of a trafficker and was exploited night after night until her rescue.

At first, Erika did not recognize her risky behaviors were serious and was not honest about her past. She was withdrawn and skeptical of the staff.

Now, after several weeks in treatment, Erika is effectively communicating with her aunt, her primary caregiver, without arguing and enjoys both school and therapy. Erika said she feels supported by staff and her therapist and recently shared that she loves being at the Receiving Hope Center and truly feels like this is the best place for her to be!
