I am interested in securing a position on the Yacht Club of Sea Isle City's Board of Trustees. My professional work history in the area of Government Relations and Compliance management supports the working qualifications I believe are needed to be an active/participating member of the Board. As members of the Yacht Club for the past four years, my husband and I have enjoyed the community and friendship afforded us by the Club. I have served on the By-laws Committee for three years, the Membership Committee for two years, the Fashion Show Committee for one year, and my husband and I have participated as volunteers at the Junior Olympics for the past four years. I believe one of my strongest qualifications for a position on the Board is my earnest desire to give back to the Club by serving it and its members.
