

Cooking Volunteers

Cooking Volunteers will cook as a group with a provided meal plan. Meal plan will include all ingredients, instructions for putting the meals together as well as packaging instructions. A volunteer team is 3-6 people and will prepare two meals per week. Student volunteers will need adult sponsors in attendance as well depending on age level.

Cooking may be done at the group's convenience on Sunday afternoon, Sunday evening, Monday morning, Monday evening, or Tuesday morning as long as the kitchen is available for the scheduled time and the Head Cook is available.

Cooking volunteers should plan on up to 4 hours to prepare and package meals.

Once seated meals are restarted, these guidelines will change.

Health Department Safe Serve Certification is encouraged for all volunteers but not required. Group leaders are especially encouraged to become Safe Serve certified. Community Kitchen has funds to pay for this on-line class. Health Department rules apply to all activities in the kitchen.
