

Announcement

SPS Canada: Turf Technical Lead – Canada

I am thrilled to officially welcome Ron Townsend to the Syngenta Turf team. Ron will be filling a new Technical Lead role that will greatly enhance the level of support we deliver to our customers across Canada.

Ron originally hails from Ohio and has his Bachelor of Science in Agriculture, Turfgrass Science, from Ohio State University. He also obtained his master's in plant pathology from the University of Wisconsin, where he studied under Dr. Paul Koch, one of North America's foremost turfgrass experts.

In addition to his strong academic background, Ron brings a wealth of golf industry and research experience to our team. He previously served as the Director of Turfgrass Research at the Chicago District Golf Association and was an Assistant Superintendent at the Exmoor Country Club in Highland Park, Illinois.

Ron is practical minded, customer focused and passionate about applying the latest research to creating truly inspired turf. He will be based out of his home office in the Kitchener, ON area and is set to start on April 18, 2022.

Please join me in welcoming Ron to the Syngenta Turf team!
