

## **Saskatchewan Regional Report**

Happy New Year from Saskatchewan! Things have been quiet in the province with some unique weather patterns. Things have been a bit of a roller coaster ride, -40C, windy for a few days then up around zero for a few days. We have had lots of snow cover throughout most of the province, and I don't see any cause for concern on turfgrass health in the springtime.

With the days getting longer and some days feeling like spring, we've had some returning seasonal staff stopping by the shop lately inquiring about the start date with excitement. I really appreciate the excitement and commitment, but we have a few weeks yet. Most of the student hiring will occur after returning from Niagara Falls in early March.

The conference in Niagara Falls is right around the corner with less than a month to go. I'm really looking forward to this great event and seeing familiar faces. Safe travels!
