

September GreenMatter – Saskatchewan Report

It is that time of year when we see our student workers head back to school and our teams cut down in size for the fall run. We have seen some more consistent weather in the past week to 10 days and the smokey days of summer look to have disappeared (one of the worst on record in Sask). Throughout the province a lot of places were seeing timely rain and others in major drought.

A big thank you to CGSA member Matt Choquette who hosted our Don Campbell Research Tournament at The Legends Golf Club in Warman. The course and property were in immaculate shape for this event. Thank you to all those that sponsored and participated through the 60km/h winds that day.

For the STA, we will be having our Fall Wind Up conference in Saskatoon at the Saskatoon Golf and Country Club, which will take place on November 4th and 5th. We look forward to seeing some great speakers and seeing everyone at that event. Good luck this fall and hope to see many of you at the Fall Field Day and the conferences throughout the winter.
