

2025 National Tournament Year Another Success!

Another successful tournament season has wrapped up! The 2025 National Tournament schedule kicked off with our first presentation during the **Canadian University/College Championship presented by BDO** in June in British Columbia and concluded with our final presentation at the **RBC PGA Scramble National Final** on October 8th in Cape Breton.

Throughout the summer, the **Canadian Golf Superintendents Association (CGSA)** proudly recognized **26 members** for hosting national events across the country. To view member profiles and photos from these events including the RBC Canadian Open and CPKC Women's Open, please [click here](#).

The CGSA represents more than **1,000 golf course management professionals** across the country. Our mission is to support our members in the **art and science of golf course management**, and to serve as the **leading authority and advocate** for superintendents in Canada.

As part of that commitment, we are proud to sponsor the **CGSA National Tournament Program**. This initiative highlights CGSA members who host prestigious national championships, recognizing their contributions to **elite-level course conditioning and championship preparation**.

Superintendents play a **critical role** in the success of any golf event. While their work is often behind the scenes, its impact is **visible on every hole** — ensuring fair, consistent, and outstanding playing conditions for all competitors.

These events—and the presentations and photos that capture them—would not have been possible without the generous support of **Golf Canada**, the **PGA of Canada**, and the **PGA TOUR AMERICAS**. The CGSA extends its sincere gratitude to each of these organizations for their continued partnership and support.
