

Reach for the Top!

CGSA's Accreditation Program

**Master Superintendent® (MS)
Accredited Golf Superintendent™ (AGS) and
Accredited Assistant Golf Superintendent™ (AAGS)**

The Canadian Golf Superintendents Association manages the top designations for those in the golf course maintenance field in Canada. By being a member of the CGSA you're already one step closer to starting your accreditation journey. You might actually be closer than you think!

The Accredited Golf Superintendent™ (AGS) and Accredited Assistant Golf Superintendent™ (AAGS) designations are available to those who are looking to be recognized as leaders in their field and show their dedication to their profession. The Master Superintendent® (MS) designation is the highest achievement and you will be recognized as one who has demonstrated experience and determination to be at the top of their field.

All programs are based on the National Occupational Standards (NOS) that encompass all competencies and skills to be a successful superintendent. The application process involves a review of professional development credits and experience. Once the application has been accepted an exam covering areas of the NOS must be taken. Following the successful challenge of the exam portion individuals must continue to exhibit participation in various aspects of professional development.

For more information on these professional designations, please click the links below, or please contact [Lori Micucci](mailto:Lori.Micucci@cgca.ca) 1-800-387-1056 ext. 27:
