

It is with great sadness that G.C. Duke Equipment announces the passing of company Vice-President, Neil Beech at the age of 53. Neil fought hard against a Stage 4 cancer diagnosis for many months.

Neil began his career 35 years ago as an Equipment Demonstrator Representative and ultimately becoming the companies Vice-President.

Neil will be remembered for his work ethic, loyalty, sense of humour and devotion to his job. He will be missed by his family, many friends, co-workers, suppliers, and customers with whom he crossed paths with over the years.

Celebration of Life details to follow.

R.I.P. Neil
