

# In the Spotlight...

**Our Mission** – Okun Services is a Great Barrington based gutter cleaning and window cleaning business working throughout the southern and central Berkshire area with 700+ customers and counting. We provide high quality work, fair prices and give back to the community where and when we can through teaming up with the local Rotary Club, sponsoring the farmers market, offering free air conditioner installation, donating to local charities and more!

**Our Background** – About four years ago, Ted Okun responded to a friend’s request to paint the interior of an apartment. This experience eventually grew into a painting business, which then turned into a gutter cleaning and window cleaning business. Cleaning gutters is important for home maintenance because the gutters and downspouts direct water away from the foundation. Too much debris will not allow your gutters to operate correctly. Seasonal cleaning also protects a home’s gutters from damage during freeze-thaw cycles over the winter. Call Ted and ask him why he thinks gutter guards are a waste of your money.

**Our Blueprint for Success** – The Covid pandemic has not slowed business. If anything, the return of seasonal homeowners to the Berkshires has created an increased demand for home maintenance like gutter and window cleaning. At Okun Services, we strive to provide friendly service and good communication that make customers comfortable working with us again and again. The more this business can give back to the community, the more successful we will have become.
