Our Background – Marlene Goldstein – Broker/Manager of Berkshire Country Homes, LLC moved to the Berkshires about fifteen years ago from NYC. Wanting a change from the hectic world of city life, and a demanding career as a designer of textiles and home products. The concept of living a country life had been a long-time fascination, and after careful research the Berkshires was chosen as the place to fulfill this vision. Originally starting out as a second home owner, soon realizing that the country lifestyle was everything i had hoped it would be the decision was made to live it full time. Deciding to use my design and marketing skills in the field of Real Estate and Home Design, and after working for several years as a Realtor and Home Stager Berkshire Country Homes, LLC was founded with the same guiding principals of customer driven service and integrity that I have demonstrated my entire life. BCH is committed to service, creativity and hard work. We strive for innovation and have developed a user-friendly website where you can search all Berkshire County listings with an easy to navigate format. We keep our clients up to date with timely market reports and analysis helping them to make smart real estate decisions. The reach of BCH stretches beyond our own market thanks to our associations and affiliates throughout the country. We are skilled at working with second home owners, investors and individuals and families looking to relocate to the Berkshires.
