# Our History is Worth Exploring

We are a region with a history that dates back to the Native Americans of the Algonquin nation. Primarily a quiet farming community, by the time the railroad arrived in 1842 business was booming, followed by a wave of immigrants for the labor force, and the rich and famous who came to build their vacation "cottages." Tycoons and tailors, laborers and lawyers, factory workers and farmers all called the Southern Berkshires home. The special synergy that exists here between people and place has inspired remarkable residents for centuries.
