

## UPDATE to our COVID Daily Operational Plan

With the love and care of GCS covenant family being foremost in our hearts, we are stepping forward in faith that the God who has cared for this school body for 40 years still cares for this school today and tomorrow.

Part of our daily staff and student preventive screening will now include a secure and private health screening app. This technology has been successfully used to help maintain optimal health for businesses and schools around the nation, and we are excited to be able to use it for our GCS family.

More details to come soon, but know that this app will allow us to stay within the state guidelines of school COVID case tracking without us knowing or divulging anyone's personal health information to the state. It (along with thermal doorway temperature screeners) will greatly ease the arrival procedures for our faculty, staff, and families.

**This app will require all students and staff to take their temperature every morning, so if you do not have a reliable thermometer, please purchase one now.**

Again, more details coming soon! We have been looking at many screening/preventive/recording options and believe that we have found the best one for the GCS family.

Thank you for your support! We appreciate your support!
