

HealthCheck App Update

Getting you back to community

Complete a daily HealthCheck to keep you and your community safe

There was an update to the HealthCheck App this week. You can now have all students on one account. YAY!!!

- Choose one of your student's to be the main account holder. Please login to that student's account and click on the "profile" button at the bottom right corner.
 - If you are a staff or faculty member, please use your login credentials as the main account holder.
 - Then click on "Children"
 - Click on "Add Child"
 - Click "Add child manually"
 - Enter child's information
 - Hit "save changes"
 - Hit back in order to enter the facility code
- Under each child's name it says "Facilities"
- Click on "facilities" and enter the correct facility code for each child

When you are logged in, click the + button and then you can select each child from there and submit the health check.

To show the green screen for multiple students, click the "Passport" button at the bottom left corner. To the right you can select the different names and show the screen.
