STUDENT SAFETY AND SECURITY

2021 GCS Bid For Cause

LEVEL 1 - \$30,000 FIRE SAFETY SYSTEM UPGRADE

Earlier detection and faster evacuation for PreK/ES/MS/HS and AC buildings

LEVEL 2 - \$10,000 LOCKDOWN SAFETY SYSTEM UPGRADE

Absolute clarification on whether we have an active threat or fire with verbal commands in PreK/ES/MS/HS

LEVEL 3 - \$20,000 CONTROLLED-ACCESS ON EXTERIOR DOORS

Controlled-access technology applied to PreK/ES/MS/HS doors to eliminate keys and better control who and when someone can enter a building

GOAL - \$60,000

It is essential that we bring the fire safety system up to current standards; have absolute clarity on the difference between a fire that you evacuate from and an active threat that you lockdown for; and control the access to our buildings while students are inside.

We are excited to announce this year's very important Bid For Cause: Student Safety and Security. We are looking to raise \$60,000 for critical security upgrades. Help bring us up to current fire code standards (as opposed to being grandfathered in), help eliminate any possible confusion between fire and active threats with added verbal commands, and greater secure our campuses by eliminating key-access so we can better control who comes in and when. Check out our website for more details.

The time to tackle these critical security needs is now.
