IMPORTANT INFORMATION FOR ALL CUSTOM PATTERNED VEHICLE COVERS

PATTERN MODIFICATION CHARGE - Size code pricing is based on patterns developed for standard (stock) vehicles. Any changes required to the base pattern to accommodate customized vehicle additions such as wings, aero kits, camper shells, light bar and van roof conversions increase the size code by one. Skirts required for covers on raised pickups also increase the size code by one. **EXAMPLE:** Honda Civic Coupe is a size code G2. With a wing added to the trunk the size code is G3. Ford Ranger Short Bed is a T1. With shell, the same vehicle is a size T2. (ANY change to the base pattern moves the size code one level higher.)

SPECIALTY PATTERN CHARGE - There is a **\$35.00 NET charge** for custom patterns where no base pattern exists, requiring the customer to complete a special dimension sheet (does NOT include modified base patterns). Priority service is not available on specialty patterns. Custom made covers are NOT returnable.

PRIORITY SERVICE CHARGE - Normal manufacturing time for custom cover orders for existing patterns is 10 to 14 workdays (based on Monday thru Thursday workweek). Priority service is available on orders for existing patterns not in stock. A **\$35.00 NET charge** per cover will be made to assure shipment within two (2) workdays. (Day after order is placed counts as first day.)

WORLD'S BEST CUSTOM CAR COVERS® -
