# standesk

electronic desktop sit-stand solution

## Specifications

The Standesk seamlessly transforms any existing fixed height desk into a sit-stand workstation and gives you the ergonomic benefits of sitting and standing at your desk without the expense of purchasing a new one.

Standesk has 2 work surfaces, one for the keyboard and mouse and the other a large and generous desk area to accommodate your monitor, or laptop.

Standesk operates using an electric motor to adjust the telescopic adjustment inside the leg. This allows for smooth movement of the desk surface. Sensor touch buttons are conveniently positioned in front of the user, make the lifting process effortless to adjust, even when fully loaded.

## Technical Specs & dimensions (mm)

## Unique features & advantages of Standesk

- Ease of operation with Sensor touch activating buttons conveniently located in the centre of the outrigger making it simple, quick & easy to adjust.
- Sits on top of an existing desk, no need to add additional expense of buying another desk.
- When used it will help reduce cardiovascular disease and reduced incidents of neck and back pain.
- The Standesk electric sit-stand workstation will give you increased productivity, energy levels and overall mental and physical fitness, all within an affordable budget.
- No pinch points for personal safety, and eliminates the possibility of power cords being cut creating an electrical hazard and electric shock
- Small footprint
- Raises and lowers in a vertical plane
- Transportable and compact especially if you change work area or relocate
- For the best experience, use a wireless keyboard & mouse

**Warranty** 5 years
