

January

wrap your water heater in an insulating jacket

February

make or buy draft stoppers to place in front of windows and doors

March

opt out of junk mail (paper and email)

April

change the air filters in your air conditioning unit(s)

May

plant a container garden

June

vacuum the coils on the back of your refrigerator

go green at home

one month at a time

Living more sustainably doesn't have to be scary. Making one small change at a time adds up. With one project per month, you will find it easy to go green at home.

green teams

sustainability.psu.edu

July

buy a reusable water bottle and/or insulated mug

August

plug small appliances into a power strip that can be turned off

September
