

National Wraparound Implementation Center

September 2021-August 2022

Individuals may register for courses at any point during the year using the same Absorb account. New participants will need to create an account using an enrollment key. For enrollment key information and registration problems, contact Emory Russo at erusso@ssw.umaryland.edu.

Introduction to Wraparound (3 days): First training of the series for frontline Wraparound facilitators/care coordinators, supervisors and directors. Participants will gain an understanding of the critical components of the Wraparound process and see an example of each component, followed by participant practice and feedback.

Engagement in the Wraparound Process (1 day): Second training, about one month after Introduction, for Wraparound facilitators/care coordinators, supervisors and directors. Participants will identify barriers to engagement, develop skills around engaging team members and family, and utilize research-based strategies of engagement for increased positive outcomes for youth and their families.

Intermediate Wraparound (2 days): Third training, about six months after Engagement, for Wraparound facilitators/care coordinators, supervisors and directors. Is intended to enhance staff skills and move toward higher quality practice. Common implementation challenges are addressed in this training. Participants will have the opportunity to bring struggles and challenges and receive expert coaching support. This course builds on Wraparound skills participants have been using with families since the Introduction course.

Advanced Supervision in Wraparound (2 days): This training is provided to supervisors/managers in Wraparound. Participants will identify the essential elements of quality Wraparound implementation, develop an increased understanding of the role of the supervisor in quality Wraparound implementation, and learn how to manage quality throughout the four Wraparound phases. This course is held twice a year, and individuals must complete prior competencies.
