ADMINISTRATOR WORKSHOPS TO SUPPORT NGSS IMPLEMENTATION

This administrator professional learning series is comprised of 5 modules designed to support site leaders with the implementation of the Next Generation Science Standards (NGSS). There is increasing urgency for administrators to embrace and support implementation of the Next Generation Science Standards (NGSS Lead States, 2013). These new standards provide opportunities for all students to learn science and 21st century skills, helping them become college and career ready. Because teachers will look to administrators for consent and encouragement to try out the substantial pedagogical and logistical shifts required, the success of the new standards depends on the expertise and support of administrators.

NGSS READY?
