

Practice making observations,  
asking questions, and  
creating connections.

# Meander Field Trip

Developing Environmental Literacy by nurturing curiosity and a love of nature.

## About Us

Durham Ferry Outdoor Education Center is nestled in a large meander of the San Joaquin River, located approximately 7 miles south of Manteca.

## Grade Levels

3 - 5<sup>th</sup> grade students participate in a:

- 4 hour guided hike along trails in the riparian ecosystem.
- Grade-appropriate, inquiry-driven, hands-on STEM activities.

## Program

Lessons are centered around: life & earth science, ecology, natural & cultural history, environmental literacy, engineering & technology.

## Standards

Program aligns with The Next Generation Science Standards and California's Environmental Principles and Concepts.
