

End of Year Reminders

Must comply by December 31, 2025.

Summary

Here are a few non-state specific year-end reminders that you may have already taken care of in 2025 but just in case you have not, please make sure you are compliant with the following by December 31, 2025.

National Do-Not-Call Registry

Federal rule §64.1200(g) requires Common Carriers of local exchange service to provide an annual bill insert furnishing information regarding the National Do-Not-Call registry.

The FCC does not specify the exact language of the bill insert but states that it must be “clear and conspicuous” and at a minimum, must include the toll-free telephone number 1-888-382-1222 or 1-866-290-4236 (TTY) and the internet address (www.donotcall.gov) established by the Federal Trade Commission for the consumer to register or revoke registration with the National Do-Not-Call database. Customers should also know that telemarketers have 31 days to stop calling new numbers on the list. Registered telephone number(s) will remain on the list until the number is disconnected or the customer asks for it to be removed. The national registry is nationwide in scope, applies to all telemarketers, with the exception of certain non-profit organizations, and covers both interstate and intrastate telemarketing calls. A consumer who receives a telemarketing call despite being on the federal registry will be able to file a complaint by visiting www.donotcall.gov or by calling 1-888-382-1222 or 1-866-290-4236 (TTY).

Mara Vasile at (605) 995-1828, Mara.Vasile@vantagepnt.com

ETC Annual Notice

Federal rule §54.201(d)(2) requires ETC's to advertise and provide notice that it is an Eligible Telecommunications Carrier (ETC) and as such, Federal Universal Service Fund (FUSF) support is received. Specifically, Section 214(e)(1)(B) of the Act and CFR §54.201(d)(2) states that an ETC must “advertise the availability of such services and the charges therefore using media of general distribution.” The supported services listed in §54.101(s) are:

- Voice grade access to the public switched network
- Minutes of use for local service provided at no additional charge
- Access to emergency services
- Toll limitation services to qualifying low-income consumers

- Eligible Broadband Internet Access Services (capability to transmit data to and receive data by wire or radio from all or substantially all Internet endpoints, including any capabilities that are incidental to and enable the operation of the communications service, but excluding dial-up service)

Mike Neeley, JD at (605) 995-1777, Mike.Neeley@vantagepnt.com

Tammie Herrlein at (605) 991-1861, Tammie.Herrlein@vantagepnt.com

Lifeline Annual Notice

Federal rule §54.405(b) requires ETC's "publicize the availability of Lifeline service in a manner reasonable designed to reach those likely to qualify for the service." This can be accomplished by publishing Lifeline information in all local newspapers throughout the service area.

For more information or if you would like VPS guidance, please contact:

Courtney Spears at (830) 895-7221, Courtney.Spears@vantagepnt.com

Mara Vasile at (605) 995-1828, Mara.Vasile@vantagepnt.com

RUS Borrowers

RUS borrowers shall notify participants, beneficiaries, applicants, employees, and other interested persons of the organization's nondiscrimination policy by (1) displaying the most current version of "And Justice For All" poster (Form AD475A) in the headquarters and branch office lobbies where it is easily visible to the general public, (2) posting the required Statement of Nondiscrimination in the headquarters and branch office lobbies where it is easily visible to the general public, (3) publishing the Statement of Nondiscrimination in the local newspaper(s) annually and (4) providing a copy of the Statement of Nondiscrimination to all new customers and employees.

Kristy Szabo at (605) 995-1786, Kristy.Szabo@vantagepnt.com

Backup Power Obligations

These rules sunset on September 1, 2025, and are no longer applicable or required. It may be good to continue simply as a courtesy and best practice.

Federal rules before sunset required Covered Providers to notify residential non-line powered subscribers (i.e. those served via fiber, fixed wireless, etc.) of service limitations in the event of a power outage. Notification to affected customers at the Point of Sale and annually thereafter was required. Covered Providers are carriers that offer facilities based residential fixed voice services that are not line-powered. Covered Providers were previously required to offer subscribers the option to purchase a 24-hour minimum standby backup power (may be accomplished via three 8-hour battery backups) or direct them as to where they can purchase the backup power. Carriers could provide the backup power free of charge but were not required to do so.

Courtney Spears at (830) 895-7221, Courtney.Spears@vantagepnt.com

HUBB Reporting Obligations

Carriers participating in modernized Connect America Fund programs must file High-Cost Universal Broadband (HUBB) deployment data with USAC by March 1 annually. **Note that even if there are no locations to update, certification is still required.** In addition, multiple files may be uploaded and certified throughout the year, so we encourage you to capture and upload into the HUBB the affected locations as buildout/upgrade projects complete. The next deadline is March 2, 2026 (since March 1, 2026 falls on a Sunday), and carriers will need to report as follows:

- ACAM I & Revised ACAM – Report all newly deployed/upgraded locations for calendar year 2025
- ACAM II – Report all newly deployed/upgraded locations for calendar year 2025
- Enhanced ACAM - Report all deployed locations on the “Required List”. Note locations must be uploaded using Costquest Fabric Location ID’s as opposed to latitude/longitude
- Legacy CAF BLS – Encouraged to report all newly deployed/upgraded locations for calendar year 2025
- Alaska Plan (those with set obligations) – Report all newly deployed/upgraded locations for calendar year 2025 along with Middle-Mile Maps
- Rural Broadband Experiment (RBE) - Report all newly deployed/upgraded locations for calendar year 2025
- CAF Phase II Auction - Report all newly deployed/upgraded locations for calendar year 2025
- CAF Phase II Model - Report all newly deployed/upgraded locations for calendar year 2025
- Rural Digital Opportunity Fund (RDOF) – Report all newly deployed/upgraded locations as outlined in the appropriate RDOF Support Authorized Public Notice. Note locations must be uploaded using Costquest Fabric Location ID’s as opposed to latitude/longitude

Remember that in addition to uploading newly deployed/upgraded locations in the HUBB by March 1 each year, milestones must separately be certified in the HUBB on the Milestone tab.

Tammie Herrlein at (605) 990-1861, Tammie.Herrlein@vantagepnt.com

Performance Testing

Although not necessarily an end-of-year reminder, an important reminder related to the required Performance Testing. Recipients of the following CAF support programs are required to conduct quarterly speed and latency testing and report the results via the USAC Performance Measures Module (PMM).

- CAF Phase II Model
- Rural Broadband Experiment (RBE)
- Alaska Plan (carriers required to file in the HUBB)
- ACAM I
- ACAM I Revised
- ACAM II
- Legacy Rate of Return (CAF BLS)
- CAF II Auction and NY Broadband Program
- Rural Digital Opportunity Fund (RDOF)
- E-ACAM begins pre-testing January 1, 2026

**CAF BLS, ACAM II and CAF II Auction (if needed) recipients must obtain new Performance Measures (PMM) samples for 2026-2027 testing. Closer to the end of the year, USAC will notify carriers who participate in these funds as to when the PMM will be ready to accept updated subscriber location data and generate new random location samples.*

DMCA Designated Agent Renewal

To avoid potential contributory copyright infringement damages based on their end-user's infringing actions (such as downloading copyrighted material, uploading copyrighted material on hosted cloud storage, etc.), Internet Service Providers (ISPs) should have a DMCA Copyright Notice Policy in place and posted on their website, and they also should have a DMCA Designated Agent who receives official notice of infringing activity. This agent is registered with the U.S. Copyright Office and that registration must be renewed every 3 years. There is not a specific deadline for the renewals, it is instead based on when the provider registers (or renews) their agent and that date will then become the deadline every three years.
