

Katharine's Pottery Class

Sculptural Votive candle holder with melted glass and shells.

This sculptural piece is fun and easy to create. Molds, made from real shells, are used for the embellishments. Indentions in the clay are filled with glass and melted to create an illusion of real water. Use your imagination - no two projects are alike!

- ✓ *Battery tea light with timer included with project.*
- ✓ *Each student will receive 4 lbs. of clay – enough to make 3 small works of art or one large piece.*
