CLASS DESCRIPTIONS

ACTIVE ADULT This class will increase your cardio fitness, build core strength and improve balance and flexibility! It's a great way to have fun while improving your overall fitness level. The instructor will utilize a variety of music, choreography and exercise bands. There are modifications for all movements. This low impact class includes abdominal and back exercises, extending, stretching and motivational relaxation.

BOOM MIX A combination of Boom Move, Boom Muscle, and Boom Mind featuring 20-30 min. of low intensity, low impact aerobics in the first block of cardio exercise. The second block of movement will include strength training using light weights and/or bands and the last block will be stretching (standing and sitting) utilizing a chair for yoga and balance work. Fun for all levels!

BOOT CAMP This class has a fun circuit-style class using body weight and non-traditional exercises to help lose weight and gain strength.

CIRCUIT TRAINING This is a personalized introduction to strength training. The instructor will familiarize you with all the machines and teach you proper adjustments and proper form when using machinery.

LINE DANCING This is a choreographed dance with a repeated sequence of steps in which a group of people dance in one or more lines without physical contact with each other. It accompanies many popular music styles including country, pop, rock, disco and jazz. This is a great way to give the body a fun work out. Memorizing routines is essential and is therefore a great exercise for the brain as well as the body.

LOW IMPACT AEROBICS Combines movement and music to improve your cardiovascular and muscular strength with a standing, dynamic workout. Upper and lower body strength work, as well as balance and flexibility are incorporated. If needed, a chair is available during floor exercises and stretching.

PILATES A unique form of simple, precise and effective exercise. Pilates exercises strengthen the joints and muscles used in everyday actions like walking, sitting, twisting, bending, and lifting. With Pilates training the correct movements become automatic and you will sit, stand and move better.

STRENGTH TRAINING Burn and Build, burn calories and build muscle while getting stronger with weights.

STRENGTH CORE AND MORE A fun, energizing class that uses weights, bands and a chair for a full body workout. Exercises can be performed standing or seated to suit all fitness levels.

STRETCH AND BREATHE YOGA This class will move your entire body through a complete series of seated and standing yoga poses. Chair support is offered to safely perform a variety of postures designed to increase flexibility, balance and range of movement. Stretch and breathe yoga is designed to relieve pain and enhance well being.

STRETCH & STRENGTH Beginners will be introduced to the basic principles of stretch and begin to strengthen the mind and body. More advanced participants will also find a great strengthening workout with instructor led modifications. Stretching is certainly involved, while creating balance in the body through developing both strength and flexibility. This is done through the performance of poses or postures and light weight, each of which has specific physical benefits. If you can't go down to the floor is not a problem you could incorporate a chair to your best advantage.

TAI CHI Helps promote balance, flexibility, stamina and endurance. The health benefits range from lower blood pressure, memory enhancement, detoxification and joint health.

ZUMBA A fusion of hypnotic Latin rhythms and easy to follow moves to create a one of a kind fitness program.
