

# VG History Book Club

The march meeting of the History Book Club will take place at 2PM, in the Library, on Monday March 2<sup>nd</sup>. Nick Taylor's remarkable history of the WPA, "American Made: When FDR put the nation to work", will be discussed.

At the height of the Great Depression, President Franklin Roosevelt introduced a controversial federal program, The Works Progress Program, which is one of our country's most significant and enduring legacies. It not only provided work for millions but changed the physical landscape of our country and the social policies that endure to today.

All residents of the "Gardens" are invited to attend. If you have any questions about this meeting or of the History Book Club, please contact Fred Ditmars at [Mellissus@aol.com](mailto:Mellissus@aol.com) or at 386-228-2727
