

EXHIBIT "C"

Initial Use Restrictions

The purpose of Architectural Guidelines and Use Restrictions is not to anticipate all acceptable or unacceptable behavior in advance and eliminate all improvements or activities which fall outside of "the norm." In fact, it is expressly intended that the Reviewer under Article IV, and the Board, as appropriate, have discretion to approve or disapprove items, or to enforce or not enforce technical violations of the Governing Documents, based upon aesthetic or other considerations consistent with the established guidelines. As such, while something may be approved or permitted for one Lot under one set of circumstances, the same thing may be disapproved for another Lot under a different set of circumstances. The exercise of discretion in approving or enforcement shall not be construed as a waiver of approval or enforcement rights, nor shall it estop the Board from taking enforcement action in any appropriate circumstances.

Subject to the above, the following restrictions shall apply to all of the Community until such time as they are amended, modified, repealed, or limited pursuant to Article III of the Declaration.

(a) Animals and Pets. No animals of any kind, including livestock and poultry, shall be raised, bred, or kept on any portion of the Community, except that a reasonable number of usual and common household pets, as determined in the Board's discretion, may be kept on a Lot. Upon the Board's request, an Owner, at his or her expense, shall remove any pet which is permitted to roam free, or, in the Board's sole discretion, endangers health, makes objectionable noise, or constitutes a nuisance or inconvenience to other Owners or residents of any portion of the Community. If the Owner fails to honor such request, the Board may cause the pet to be removed at the Owner's expense. No pets shall be kept, bred, or maintained for any commercial purpose. Dogs shall be kept on a leash or otherwise confined in a manner acceptable to the Board whenever outside a structure and pet owners are responsible for cleaning up (e.g., scooping and removing solid waste) after their pets on the Common Area.

(b) Wildlife. Capturing, killing, or trapping wildlife is prohibited within the Community, except in circumstances imposing an imminent threat to the safety of Persons or pets.

(c) Firearms; Fireworks. The use and discharge of firearms within the Community is prohibited. The term "firearms" includes "B-B" guns, pellet guns, and other firearms of all types, regardless of size. The use and discharge of fireworks is prohibited except by license granted by the Association.

(d) Nuisances. No Owner shall engage in any activity which constitutes a nuisance (meaning offensive or detrimental activity, as determined by the Board), or which materially disturbs or destroys the vegetation, wildlife, or air quality within the Community, or which results in unreasonable levels of sound or light pollution.

(e) Garages. Garage doors shall remain closed at all times except when entering, exiting, or otherwise actively using the garage. A garage or carport may not be converted to finished space for use as an apartment, an integral part of the Lot's living area, or for purposes other than parking vehicles and ancillary storage, without prior approval pursuant to Article IV.

(f) Exterior Lighting. Excessive exterior lighting on any Lot is prohibited. The Board in its sole discretion shall determine whether any exterior lighting is excessive.

(g) Storage of Goods. Storage (except in approved structures or containers) of furniture, fixtures, appliances, machinery, equipment, or other goods and chattels on the Common Area (except by the Association), or, if not in active use, any portion of a Lot which is visible from outside the Lot is prohibited.

(h) Prohibited Conditions. The following conditions, structures, or activities are prohibited on any Lot:

(i) Dogs runs and animal pens of any kind, unless properly screened and approved in advance in accordance with Article IV;

(ii) Shacks or other structures of a temporary nature on any Lot except as may be authorized by Declarant during the initial construction of improvements within the Community. Temporary structures used during the construction or repair of a dwelling or other improvements shall be removed immediately after the completion of construction or repair;

(iii) Permanent basketball goals, basketball standards, or backboards which are or would be visible from any street or Common Area; provided, portable basketball goals may be used on a Lot without prior approval, but must be stored so as not to be visible from any street or Common Area overnight or otherwise when not in use;

(iv) Freestanding flagpoles more than 20 feet high (or such lower height limitation as may be permitted by Florida law), any flagpole which obstructs sightlines at intersections and is erected within or upon an easement or right-of-way, and flags (other than those required to be permitted under Florida law) exceeding a standard size (as set forth in the Architectural Guidelines or determined in the Board's discretion and set forth in a Board rule) or containing inappropriate or offensive content (as the Board may determine in the exercise of its discretion);

(v) Outdoor athletic and recreational facilities such as playscapes, swing sets, and sport courts unless properly screened and approved in advance in accordance with Article IV;

(vi) Outside clotheslines or other outside facilities for drying or airing clothes unless properly screened and approved in advance in accordance with Article IV; and

(vii) Wood or chain link fences. In any event, all fencing must comply with the Architectural Guidelines and must be approved in advance of construction in accordance with Article IV.

In any event, and notwithstanding the above list of prohibited conditions, any structure, improvement, or thing proposed for construction, erection, installation, or placement on a Lot requires prior Reviewer approval in accordance with Article IV, unless specifically made exempt under the Architectural Guidelines.

(i) Quiet Enjoyment. Nothing shall be done or maintained on any part of a Lot which emits foul or obnoxious odors outside the Lot or creates noise or other conditions which tend to disturb the peace, quiet, safety, comfort, or serenity of the occupants and invitees of other Lots.

No noxious, illegal, or offensive activity shall be carried on upon any portion of the Community which, in the Board's reasonable determination, tends to cause embarrassment, discomfort, annoyance, or nuisance to others.

(j) Signs. No sign shall be erected within the Community, except those required by law, including posters, circulars, and billboards; provided, one of each of the following types of signs may be erected on a Lot without the Board's written consent: (i) residential identification signs of a face area of 75 square inches or less for identification of the occupant and its address, in a style designated by the Architectural Guidelines or approved by the Reviewer; (ii) during the period that the Lot is being offered for sale, "For Sale" signs or "Open House" signs of a size and style permitted by the Board in its discretion; and (iii) security signs having a face area of 75 square inches or less, in a style and location designated by the Architectural Guidelines or approved by the Reviewer. This restriction shall not apply to entry, directional, and marketing signs installed by Declarant or a Builder. The Association and the Community Council, with the Board's approval, shall have the right to erect signs on the Common Area.

(k) Holiday Decorations. Owners may display holiday decorations on their Lots if the decorations are of the kinds normally displayed in single family residential neighborhoods, are of reasonable size and scope, and do not disturb other Owners and residents by excessive light or sound emission or by causing an unreasonable amount of spectator traffic. Permitted decorations may be displayed for such periods as are normal and customary for comparable residential communities, as determined in the Board's discretion.

(l) Antennas and Satellite Dishes. No antenna, satellite dish, or other device for the transmission or reception of television or radio (including amateur or ham radios) signals is permitted outside the dwelling on a Lot, except those devices whose installation and use is protected under federal law or regulations (generally, certain antennae under one meter in diameter). Notwithstanding such protection, an application for such an antenna or other device must be submitted to the Reviewer for approval and approval will be granted only if:

(i) First, the antenna or other device is designed for minimal visual intrusion (*i.e.*, is located in a manner that minimizes visibility from the street or an adjacent Lot and is consistent with the Community-Wide Standard); and

(ii) Second, the antenna or other device complies to the maximum extent feasible with the Architectural Guidelines within the confines of applicable federal regulations

(i.e., without precluding reception of a quality signal or unreasonably increasing the cost of the antenna or device).

The Reviewer shall consider any such application on an expedited basis.

Notwithstanding the above, Declarant and/or the Association may erect an antenna, satellite dish, or other apparatus for a master antenna, cable, or other communication system for the benefit of all or a portion of the Community, should any master system or systems be used by the Association and require such exterior apparatus.

(m) Trash Containers and Collection. No garbage or trash shall be placed or kept on any Lot, except in covered containers of a type, size and style which are pre-approved by the Reviewer or specifically permitted under the Architectural Guidelines, or as required by the applicable governing jurisdiction. Such containers shall be screened from view outside of the Lot except when they are being made available for collection and then only for the shortest time reasonably necessary to effect such collection. Rubbish, trash, and garbage must be removed from the Lots and may not accumulate on any Lot. Outdoor incinerators may not be kept or maintained on any Lot.

(n) Pool Equipment. All pool equipment stored on any Lot shall be screened from view from outside the Lot.

(o) Unsightly or Unkempt Conditions. All portions of a Lot outside enclosed structures shall be kept in a clean and tidy condition at all times. No rubbish or debris of any kind shall be placed or permitted to accumulate upon or adjacent to any Lot in a manner which is unsanitary, unsightly, offensive or detrimental to any other portion of the Community, as the Board may determine.

Woodpiles or other material shall be properly screened and stored in such a manner so as not to attract rodents, snakes, and other animals and or create a fire hazard, as the Board determines. No activities shall be conducted upon or adjacent to any Lot or within any structure on a Lot which are or might be unsafe or hazardous to any Person or property. Open fires are prohibited within the Community, except in a contained outdoor fireplace or barbecue unit while attended and in use for cooking purposes.

(p) Vehicles and Parking. As used in this Section, the term "vehicles" includes, without limitation, automobiles, trucks, boats, trailers, motorcycles, campers, vans, and recreational vehicles.

No vehicle may be left upon any portion of the Community except in a garage, driveway, or other area the Board designates. No person shall park any recreational vehicle, boat, mobile home, trailer, camper, stored vehicle, commercial vehicle (including all vehicles with commercial lettering or logos), or any unlicensed or inoperable vehicle anywhere within the Community other than in an enclosed garage. "Sports utility vehicles" and "mini-vans" (as such vehicles are commonly referred to, as determined in the Board's discretion) and pick-up trucks without camper tops or other raised enclosures shall be treated as automobiles unless they

have commercial lettering, logos, or other indicia of commercial use, and may be parked in driveways outside of enclosed garages.

Notwithstanding the above, vehicles which are unsightly or unclean to a degree at which their appearance is inconsistent with the Community-Wide Standard (for example, and without limitation, vehicles whose height or suspension is significantly increased, vehicles with significantly oversized tires, or vehicles whose general external appearance is otherwise substantially altered or customized), may not be parked outside of enclosed garages. The Board may enact rules and standards governing or identifying the types of vehicles or particular vehicle conditions which are inconsistent with the Community-Wide Standard or, in the absence of specific rules or standards, shall have discretion in determining whether vehicles comply with the Community-Wide Standard.

Notwithstanding the above, for purposes of cleaning, loading, unloading, and short-term and visitor parking, any vehicles may be parked outside of an enclosed garage temporarily and irregularly to accommodate such use. The Board may enact rules governing such temporary, irregular use or, in the absence of specific rules, shall have discretion in determining what constitutes permissible use.

This Section shall not apply to emergency vehicle repairs or to construction, service, and delivery vehicles for periods necessary to perform the services or make a delivery.

(q) Wetlands, Lakes, and Other Water Bodies. Wetlands, lakes, ponds, and streams within the Community, if any, are part of the Community's water management system, and no active use of lakes, ponds, streams, or other bodies of water within the Community or within any golf course is permitted, except that the owner of the adjacent golf course, and its agents, shall have the exclusive right and easement to retrieve golf balls from bodies of water within the Common Areas and use water for irrigation purposes under a separate agreement with the Association. The Association shall not be responsible for any loss, damage, or injury to any person or property arising out of the authorized or unauthorized use of lakes, ponds, streams, or other bodies of water within or adjacent to the Community.

(r) Solar Equipment. No solar heating equipment or device is permitted outside any enclosed structure on the Lot except such devices whose installation and use is protected by federal or Florida law. Notwithstanding such protection, an application for such equipment or device must be submitted for approval under Article IV prior to installation and approval will be granted only if:

(i) First, such equipment or device is designed for minimal visual intrusion when installed (*i.e.*, is located in a manner which minimizes visibility from the street or an adjacent Lot and is consistent with the Community-Wide Standard); and

(ii) Second, the equipment or device complies to the maximum extent feasible with the Architectural Guidelines within the confines of the applicable governmental regulations.
