

BRADFIELD ELEMENTARY

CHESS CLUB

Ready to Think, Play, and Win? Join Our Chess Club Today!

Where every move is an adventure! Join the fun, friends, strategy, sharpen your skills, learn, grow, compete, and shine. Chess has never been this awesome!

Presented by USA Chess The students will learn the basic rules of chess, study openings, middlegame, endgame, checkmate the opponent's King, and understand what stalemate is. They will also learn basic tactical exercises (pins, forks, double attacks, skewers, etc.) and look out for tricks and traps. As they grow stronger, they will learn to spot simple combinations and master the simplest methods of attacking and defending. The purpose is to teach the student to see the chessboard, find hidden threats and connections between

different pieces, and coordinate the pieces to achieve one goal. Decisiveness, discipline, analytical thinking, focus, and patience are essential at this young age when thinking patterns and habits are developed. Chess accomplishes all of these qualities.
