

BYTE SIZE CODING & ROBOTICS

After-School Program

10/06/2025, 10/27/2025, & 11/17/2025

4-5pm

In the Innovation Lab

The Byte-Size Coding & Robotics Club is an exciting after-school program designed for 1st–4th graders to explore STEM through hands-on coding and robotics activities.

Meeting once a month from 4:00–5:00 PM, students build and program robots using tools like Dash, LEGO Education kits, and the Byte-Size coding app. The program builds critical thinking, teamwork, and creativity as students tackle themed missions like “Space Explorers,” “STEM Spy Academy,” and “Robot Rescue Squad.”

Sign up limited to first 30 students for this semester.
