

CASTING CALL – INDEPENDENT FEATURE FILM

“Untitled Horror Feature”

A group of friends chasing internet clout stumble across disturbing footage of a murder. Tempted by the promise of fame, they decide to investigate and solve the mystery themselves — only to be thrust into a nightmare far darker than anything they ever imagined.

Genre: Found Footage Style Horror

Filming Location: Fargo/Moorhead and Surrounding area

Filming Dates: **April 2026**

(This project involves handheld camera work, outdoor night shoots, and improvisation. Please consider comfort with these elements before auditioning.)

Roles Available:

1. Alex – Role 1: "The Cameraman"

Age Range: 20s–30s

Gender: Male

Description: The documentarian and driving force behind the footage. Curious, persistent, and committed to capturing everything, even when things turn dangerous. This role requires comfort with improvisation, physical activity (running, holding camera gear, filming in low light), and maintaining a natural, believable performance while operating or simulating camera work.

Notes: This character is the audience’s POV — authenticity and commitment to “always be filming” are key. Previous experience with handheld cameras a plus, but not required.

2. Jordan – Role 2: "The Streamer"

Age Range: 18–30

Gender: Male

Description: An aspiring influencer determined to turn every moment into content. Charismatic and entertaining on the surface, but reckless in pursuit of fame and views. This character provides comic relief early on, but their need for attention drives the group into increasingly dangerous territory.

Notes: Strong improvisational skills are important — especially in creating believable “stream moments” as if speaking directly to a live audience. Must be comfortable with high-energy delivery, physical activity, and emotionally intense scenes (panic, fear, desperation).

Familiarity with streaming/social media tropes is a plus, but not required.

3. Mara – Role 3: "The Girlfriend"

Age Range: 20s

Gender: Female

Description: The emotional anchor of the group. Supportive and grounded, but wary of the risks as the situation escalates. Torn between loyalty to her partner (the Cameraman) and the instinct to get out while they still can. Must carry vulnerability and strength — believable in both intimate, quiet moments and high-intensity horror sequences.

Notes: This role requires strong emotional range, including panic, fear, and confrontation. Chemistry with the Cameraman and “Casey” is important, as well as dynamic tension with the Streamer.

4. Casey - Role 4: "The Best Friend"

Age Range: 20s

Gender: Female

Description: The Girlfriend’s closest friend, a self-proclaimed internet sleuth obsessed with true crime and murder mysteries. She treats the trip like her own investigation, quick to reference online theories, case files, and obscure details that the others overlook. Her curiosity fuels the group forward as much as the Streamer’s ego — though her fascination curdles into dread when the horror becomes real.

Notes: This role requires sharp improvisation skills, the ability to deliver “info-dump” style lines naturally (as if recalling things from online forums or podcasts), and a strong emotional arc from playful confident curiosity to in too deep. Comfort with sarcasm, wit, and panic is a must.
