FREE DESIGN CONSULTATIONS

Here is how it works

The design consultations will be held on Saturdays weekly as needed starting August 17th from 8:00 AM until 12: 00 PM. Your individual consultation will be strictly limited to 30 minutes to allow as many of your neighbors as possible to take advantage of this free event.

To book your spot simply call Mike at 400-0257 to see what times are available. Due to the projected popularity of these free consultations please be on time. Get organized in advance and be prepared to show photos of the areas in question and/or have site plans available so Mike can help with the general layout if that is your area of focus. In the time allotted, Mike will not be able to produce complete plans and will only be able to give general guidelines and ideas for small areas of your landscape. Should you need complete designs that you own and can install yourself or put out for bids, the design plan service will be available at a very reasonable price for this event.
