# HEAD, HEART, HANDS, AND HOPE!

## The NEW Handbook on the Catechetical Accompaniment Process

In February 2024, the US Conference of Catholic Bishops approved the new Handbook on the Catechetical Accompaniment Process, replacing the previous USCCB Conformity Protocol. Dr. Joseph White, a member of the working group, will explain the shift from content-focused objectives to goals across three domains: **Cognitive** (learning concepts), **Interior Life** (fostering attitudes), and **Behavioral** (actions for living and sharing faith). The Handbook also emphasizes catechesis for parents, families, and catechists, moving beyond child-only focus.
