Did You Know??

The oldest piece of written music ever found is from 408 B.C. !

November

What have we been doing?

October has been incredibly busy for music class! All grades have been rehearsing for various music performances that are quickly approaching. We have explored some new instruments such as the French horn, and our 4th graders have started reading and clapping rhythmic patterns. They will start learning the recorder in November. Our second graders just started preparing for their Spring Show, and our K5 classes are learning Christmas music to sing for the people at the Murray House. Our students are sharing their gifts of music in chapel services as well! There are so many fun things happening in our music class.
