

# ART AUGUST 2018

Hi Parents!

This month in Art class has been amazing! I have really enjoyed getting to know all of my students and seeing the great potential each one of them have. I just wanted to give you a quick summary of what we have been learning this month and what projects are in the making. The month of August was an introduction to the Elements of Art! As a school, we are working on a collaborative project that you will be seeing hanging up outside my door within the next few weeks. In addition to color theory, each grade level worked on an enormous letter as a part of "St. Luke's Wildcats!" and also was assigned a specific element of art to showcase on that letter. Projects will begin to be sent home in September, after I begin to gather and photograph them for the Art Photo Books (for those that signed up for them). Once our school-wide project is complete, we will be moving forward to our September theme, Dr. Seuss. I have some unique and creative projects in store for the kids!

Go Wildcats!

Fallon Gleason, Art Teacher
