ON JUNE 16, 2026,
VOTE NO ON SQ 832

FACT: SQ 832 ties Oklahoma's minimum wage to the cost of living in Los Angeles and San Francisco

- SQ 832 raises Oklahoma's minimum wage to **\$15 an hour**, but it doesn't stop there...
- SQ 832 continues raising Oklahoma's minimum wage **every year** after that, based on a national cost-of-living index for big cities, which means **politicians in California** will set the minimum wage in Oklahoma

FACT: SQ 832 will hammer Oklahoma small businesses

- SQ 832 will force many Oklahoma small businesses to **cut hours and benefits** for their employees
- SQ 832 will directly impact at least **8 out of every 10** small businesses in Oklahoma
- SQ 832 directly targets farmers and ranchers by removing longstanding protections for family farms

FACT: SQ 832 will kill jobs and raise prices across Oklahoma, hurting the people it claims to help

- In states like California with the same minimum wage structure as SQ 832, the first jobs eliminated are **entry-level jobs for younger and low-skilled workers**, including teenagers
- SQ 832 will hit small business jobs the hardest, while large national corporations will absorb the costs by **replacing employees with automation**
- SQ 832 will **raise prices on essentials** like groceries, fuel, medication and child care, beyond what Oklahoma families and senior citizens are already seeing

Son of former Rep Governor Frank Keating, got his Business Admin degree from Southern Methodist Univ. Served as a state trooper for three years, started Foundation for State Troopers to provide support to troopers and their families. Served as Secretary of Public Safety under Gov. Stitt, who praised his accomplishments stating, "Oklahoma has moved from 50th to 45th in incarceration rate among U.S. states, while lowering recidivism, violent crime & non-violent crime rates." As a board member of OU Health, he believes he was integral to the hospital's decision to eliminate trans surgeries and counseling. He believes the state's priority is to serve and protect its people. Chip wants to get rid of State Income Tax. There are 10 states in US that don't have an income tax. If you look at net migration, we are seeing a migration change in our country, and they are going to friendlier tax policy states. I think we're missing a big opportunity by not addressing this issue," he said. According to his website: he believes in ending cashless & low bail for violent and repeat offenders and require tougher sentencing laws that keep dangerous criminals behind bars. He is against foreign land ownership and promises to order a full audit of foreign land ownership in Oklahoma. Wants to create an accountability system for law enforcement to ensure they are reporting illegal immigrant encounters, keep them from receiving legal benefits from the state. Will champion a "Made in America Here In Oklahoma" plan that grows manufacturing, strengthens our supply chains, and ensures Oklahoma workers are always at the tip of the spear for America's defense, energy, and agriculture sectors. Believes farming is food security and will take measures to protect our farms. Under his energy plan, no community will ever have a project forced on them! Committed to building a tax structure that incentivizes small business already operating in OK. Keating's education plan involves getting back to basics, includes restoring a phonics-based approach and to bring back the third grade reading tests. He wants to reward teachers who produce results (not just time served), As Governor, Chip will immediately begin a full review/audit of the more than 300 boards/commissions embedded within state gov. to eliminate/consolidate at least 1/3 to save taxpayer dollars, limit power of non-elected appointees, provide citizens transparency and public notice to avoid abuse/overreach. Will conduct state government office hours with key cabinet so public have direct access to their state government. Keating's has only taken \$7.500 from PAC's money, total \$3,442,679.00

Echols is a co-founder, President/CEO of **Turn Key Health Clinics**, a private company provides medical services to around **100 correctional facilities** across nine states. In 2016 while serving as House Rep Echols asked Tulsa County Sheriff Vic Regalado to lower a bid requirement for a jail medical contract so Turn Key could compete. After Echols and his partners donated to Regalado's campaign it appeared they won the contract. Turn Key ended a long-standing contract with Cleveland County Detention Center in 2025 amid on-going complaints and in-custody deaths at the facility. There have been over 100 lawsuits filed against the company since 2014 and Federal litigation against the company is still ongoing in the Western District of Oklahoma. In 2025 the OK Supreme Court granted Turn Key sovereign immunity which shields them from lawsuits at the state level. Even though he now holds a non-controlling minority stake in the company he was still drawing a salary up until 2023. With this in mind and since the AG's office has broad authority over public corruption and oversight of state contracts there is a potentially large conflict of interest, for someone with a financial stake in a company embedded across OK's jail system which has received sovereign immunity from state lawsuits, a ruling that insulated them from legal liability. To date Echols has received over \$1.5 million from individuals, some of his political buddies including House Reps Trey Caldwell, Anthony Moore, Mark Lawson, Chris Kannady, Todd Gollihare, Mark Tedford, former Senator Greg McCourtney. Promoted to director of the county audit division in 2011, she oversaw \$5 billion in federal funds. As director, she overhauled the system, built relationships with elected officials in all 77 counties, implementing processes to help make county government, one of the most accountable levels of government.

Cindy became the **First Female State Auditor in OK history in Jan. 2019-2026** ending due to term limits. Under her tenure the office published an average of 350 audit reports per year with recommendations and solutions for improvement. She audited Epic Schools leading to the filing of criminal charges against the guilty parties. In a recent audit of funds provided by the federal government she found gross mismanagement, she discovered \$93.4 million of questioned costs. Byrd's personal takeaway from auditing Oklahoma's two largest school districts is that attempts to fix education with "more programs, more services, more counselors, more technology" have not improved academic outcomes but have only added to rising costs. Cindy believes her experience and knowledge qualifies her for the position of State Treasurer, since good government is good money management. She believes her experience will be a great asset to the next Governor, to help in cuts waste in spending in gov. funding, to fulfill the financial responsibility to meet the needs of the people through healthcare, education and human services.

His goal is to protect consumers, lower costs and increase access (especially in rural areas), protect OK by fighting for local control. **Voted: for HB1019 prohibiting insurers from charging more for insulin which raised insurance premiums. SB1718 Mandated Ins for mental health and substance abuse treatments, increasing insurances costs.**

He wasn't to recruit quality carriers to provide competitive pricing, which is not going to happen if you are mandated ins to cover additional items. There is only 4 insurance companies left in OK, when there use to be 50. Since OK got involved in Insurance, the market tanked, creative policies stopped, cost went up. Marty wants to push for faster claims & fewer excuses, stop insurers from dropping coverage over roof age or a single claim. **Voted for HB1019 prohibiting insurers from charging more for insulin, raised insurance premiums, authored SB298 requiring insurers check federal death records to locate beneficiaries of life insurance policies, SB1245 setting criteria for the Insurance Commissioner position, SB968 & SB970 to weaken the Open Records Act protections, SB608 subsidizing Hollywood studios in Oklahoma, SB1086 raised taxes by eliminating Capital Gains deductions. Rhonda was born and raised in Oklahoma and worked her way through college in “dirty” jobs like trucking, utilities and some construction. Upon graduation she worked for the State.

Issues of concern are rising utility costs mostly caused by Data Centers, over 20,000 abandoned oil & gas wells, some contaminating the ground and water that have been left for the state to deal with. Oil production wastewater injection wells purging and spreading toxic contamination to vegetation, water sources and livestock. She is not against industry of oil & gas but does take issue with companies that make billions in profit annually off Oklahoma’s resources, but then make a mess and leave it for the state & taxpayers to deal with. She has concerns with the amount of water data centers require and the wastewater they produce while only creating a few dozen jobs. **She is running to be an advocate for the people and their voice on the commission.**
