

## ARCC Convenes Board Members from Three States

Representatives of state boards of education from three states met on May 22-23, 2017 at Stonewall Jackson Resort in West Virginia. Those attending included 13 state board members from West Virginia, Kentucky, and Ohio, in addition to ARCC staff members who facilitated the discussions. The objectives were to identify common challenges and potential best practices for meeting those challenges, provide opportunities for networking, and develop an artifact of detailed notes including next steps.

Of those responding to the feedback survey, 100% agreed or strongly agreed with the statements that they came away with a better understanding of how to identify common challenges, increased their knowledge of potential best practices for meeting challenges, and began building a network of peers.
