

A Free Research Study on Talk Therapy

Yale Mood Study

If you are between the ages of 16 and 29 years, have symptoms or a diagnosis of bipolar disorder or depression, you may be eligible to participate in a *free and confidential* research study on a talk therapy on improving mood symptoms and helping to reduce the risk of suicide. This study also looks at how the brain works with advanced MRI brain scanning techniques.

Compensation up to \$540.

To learn more or to see if you are eligible to participate, please contact Erin at 203-737-2507 or Bernadette at 203-737-2868.
