

THE HEALTH OF TEENS IN CONNECTICUT

Results from the CT School Health
Survey (CSHS)

MAY 12, 2022
2pm - 3pm

LEARNING OBJECTIVES

- Increase awareness of youth risk behaviors in CT teens, as related to mental health and substance abuse
- Increase awareness of preventive or protective behaviors and factors that show reduced risk behavior in CT teens
- Understand the CT school health policies and practices that currently address these risk behaviors
