

HEAR FROM OUR PATIENTS

“Being able to hear conversations the first time again, and really understand, was fabulous for me. Instead of asking my family to repeat themselves and try to watch their lips as they spoke, I had the opportunity to just close my eyes, listen, and I would hear and understand them.”

– Dawn C.

“The struggle to hear in groups and crowds exhausted me. I felt anxious and trepidation in certain situations. Finally a qualified technician truly listened to my concerns. Ray Wenc could show me exactly what I was hearing and not hearing. The level of professionalism and investment in time and client satisfaction is of the highest quality. The improvement in my hearing moved me to tears.”

– Debra R.

“They had a kind, caring approach and responsive interest in helping me determine what would be best for me. It made a considerable difference as it was my first time seeking hearing aids.”

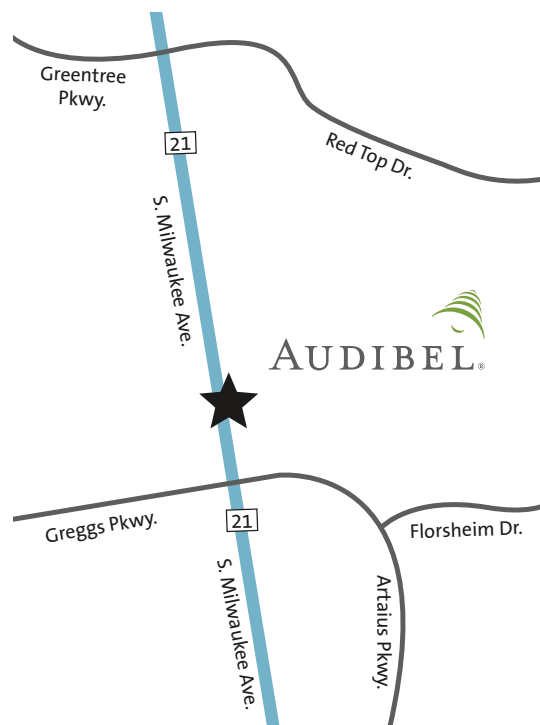

– Paula D.

**Better Hearing.
Better Living.**

YOUR LOCAL HEARING SPECIALIST

Owner of Audibel Hearing Aid Center, Ray Wenc, is a state licensed hearing instrument specialist. Ray has a passion for helping the hearing impaired reconnect with life.

"Each and every time I hear a patient's hearing success story, I am moved on a level that no other profession could provide. It is overwhelming... pure joy and the greatest satisfaction I could ever hope for. That is why I do what I do for my profession."

OUR PRACTICE

Our practice prides itself on taking care of each patient as if they were our own family member, providing the best possible hearing outcome. We focus on continually serving the hearing needs of the Libertyville community with dedicated hearing care. In this process, our practice demonstrates disciplines and values to ensure fair and personalized hearing care for each patient.

OUR COMMITMENT

Your sense of hearing helps connect you to the world. A loved one's voice, conversation with friends, birds singing, and the wind blowing... your hearing allows all of these sounds, and more, to communicate messages to your brain. Don't let hearing loss hold you back from all that life has to offer. We will design a system so you can better understand at work, home, church and other social events.

HOSTED EVENTS

At Audibel Hearing Aid Center we host a number of different events for our local community members.

1. Coffee Break – "The Causes of Hearing Loss" Seminar
2. Free Hearing Screenings/Otoscopic Exams on site
3. "Ringing in the Ear" Tinnitus Seminar
4. Workshop – "How to Care for your Hearing Aids"

All events can be scheduled and held directly on your site or at a convenient off-site location.

To learn more about our events contact Susan Miller at 224-360-7725 or email susanmaudibel@gmail.com.

To schedule an appointment at our office please call 847-362-7500.

NEED A HEARING EVALUATION?

Don't despair, YOU ARE NOT ALONE. One in ten people suffer from some degree of hearing loss. That equates to over 30 million individuals in the United States alone. With advancements in hearing aids we now have "technology as smart as the human brain." We are even helping people who were told in the past that help was not available. NOW is the time to call for a FREE HEARING SCREENING to determine if hearing aids will improve your communication and quality of life.

To help determine if you and anyone else in your family may have a hearing loss, use this self-test:

Do you find yourself asking people to repeat themselves?	Y	N
	<input type="checkbox"/>	<input type="checkbox"/>
Do you hear, but not always understand conversations, especially in group situations?	<input type="checkbox"/>	<input type="checkbox"/>
Does it seem as though people are mumbling when they speak to you?	<input type="checkbox"/>	<input type="checkbox"/>

If you answered "Yes" to any of these questions, it could indicate the need for further testing.
