

Dear fellow IFSC members,

We love facilitating zero waste events but the bigger part of our business is providing food scrap diversion. As a thank you for the good green work that you do, we have a gift for you. If you are not yet using our food scrap collection service at your home, and if you are in our service area, we'd like to give you your first three pickups for free. (This is a little easier for us to keep track of than a discount.)

We're pretty confident, because of your involvement in this organization, that you are an environmentalist. You probably already know that diverting your food scraps from the landfill to a commercial composting facility is an important personal practice that allows you to mitigate climate change.

We make it easy. We swap out your 5-gallon bucket every time so all you need to do is fill it and remember to put it out. We also help with that by sending you an e-mail reminder. To sign up, go to the contact us tab on our website, fill in all of the information and in the comments section put this code: IFSC3FREE [www.collectiveresource.us/contact-us.html](http://www.collectiveresource.us/contact-us.html)

If after 2 pickups, it's not for you, just let us know and we'll make your 3rd pickup the end of your service. We're pretty sure you're gonna love it and want to continue. In that case, we'll just keep the service rolling and the service fees will be \$10.50 for weekly and \$15.50 for biweekly pickups. There are discounts for prepaying for an annual subscription. All Evanston properties are covered by our city franchise agreement rates. When you sign up, we'll outline all of the rates and discounts.

Got questions? We have answers.
